

BRIGHTON

We built & created our 'green & white' Brighton hut on site in 2004 with a classy, 'beachy' theme & remodelled the bathroom in 2016.

We originally painted this hut a bright yellow....it didn't work! The boys had to start the paintwork all over again. ☹️

Brighton has one of the best views in the house because it faces the Village green & lovely gardens.

Enjoy your breakfast from the deck of this light, bright & happy hut & enjoy the 'me time' which seems to escape us all.
