

COTTESLOE

Cottesloe (named after the beach in Western Australia) was built onsite in 2004 & has seen major changes over the years. We wanted our guests to be able to enjoy the Village Green & gardens from their deck AND inside the hut.

We originally painted this hut 'road workers' orange', it seemed like a great idea at the time – it wasn't, I'm not sure WHAT we were thinking.

We love how the changes in 2016 have really added some charm & brightness to the hut & it basically screamed; "paint me pink & white". 😊
