

# TORQUAY

*If you like rustic & sophisticated in the same breath, you'll love Torquay like we do.*

*In 2018 we converted Torquay from a one to two-bedroom hut, doubled the living area and completed a full bathroom upgrade.*

*We've got a real mix of old and new in this hut. We loved decorating after the upgrade because it seems like every piece of furniture looked like it belonged – who'd have thought black and white chairs, in this rustic climate, would highlight the kitchen??*
