

## VILLAGE HALL & VILLAGE GREEN

*When we purchased this property in 2002, it didn't have the beautiful gardens we have now – even the phone box was a little shabby!*

*The English seaside garden around the property has added colour, scent & pure joy for many people over the years.*

*The Village Green & Village Hall have hosted many weddings & celebrations. It's fair to say, we're glad the walls can't talk. 😊*

*The addition of the full kitchen in the hall has added an entire dimension to our huts and we are now finding corporate groups are taking a less formal, more relaxed approach to their functions.*
