SOLO AXE

BROWN

BLACK

Go beyond the backyard with the new Solo axe from WOOX. Less than two pounds in weight yet bearing a load of utility, the Solo is the multi-use axe for backcountry explorers who demand maximum use from their gear.

TWO COLOR OPTIONS | MULTI-USE HEAD | SHEATH INCLUDED

SOLO AXE

Specs	Description
Head	Tempered Carbon Steel (C45/1045)
Edge	Convex
Head Size	8.25" long x 3.5" tall Blade width: 0.5" Adz width: 1.5"
Handle	Appalachian Hickory
OAL	19"
Weight	1.85 pounds

The head arrives absolutely sharp on two edges, ideal for a variety of cutting applications from trimming limbs, creating kindling or clearing a camping area. The sharpened beard is useful for clearing walkways and trails from small intruding branches and can be used for clearing lush vegetation by making cross-body sweeps.

The chisel-tipped mattock blade is excellent for trimming bark, trenching and backcountry jobs where shaping large pieces of wood is useful. The pipe-backed topline of the mattock serves as reinforcement to reduce wear and damage from accidental contact with the ground while also providing a grip point if choking up on the head for crafting tasks.

FORTE AXE

An inspired hybridization of classical American and Italian axe design, the WOOX Forte draws from the best of both schools to strike a perfect balance of features for the modern hand tool user. With a silhouette inspired by traditional Italian woodworking axes, the broad and mildly curved bit makes accurately connecting blows a snap, with a beard to assist in choking up on the handle for precise work when carving or crafting.

22" or 28" AVAILABLE | DUAL PURPOSE HEAD | SHEATH INCLUDED

FORTE AXE

Specs	Description
Head	Tempered Carbon Steel (C60/1060)
Edge	Convex
Head Size	6 3/4" long x 3 1/4 " tall x 1" wide
Handle	Appalachian Hickory
OAL	Forte 22" or Forte-X 28"
Head Weight	3.3 pounds
Overall Weight	4.1 pounds (22") 4.4 pounds (28")

A deeply penetrating bit geometry makes chopping a breeze, while a concave high centerline helps act as a chip-breaker and smooths the bit-to-eye transition when splitting. A prominent hardened poll serves as an effective hammer face and optimizes the balance of the head. This places the center of gravity inside the hand when choked up on the grip for truly sublime control of the tool whether doing single-handed precise cuts or full two-handed chopping strokes.

The large slip-fit eye allows for easy wedge-free handle replacement while preserving some effective amount of swell to the knob of the handle for a secure grip in relaxed hands.

Compact and light enough to be easily packed but heavy enough to tackle big tasks, Forte is sure to make for a constant companion, no matter the circumstances. Leather sheath included.

Sheath included.

Every Forte includes a heavy-duty, genuine Italian leather sheath to protect against unwanted cuts from the sharp blade.

AX1

WOOX reinvents the classic axe through a timeless yet innovative design. Stunning craftsmanship is evident, and the utility is nearly endless. Featuring an octagonal Appalachian hickory handle, cerakoted or blued carbon steel head, and a steel, diamond-shaped pommel.
