

# GREEN KIWI

MADE IN NEW ZEALAND

## BITUMEN & ASPHALT SPECIALTY SOLUTIONS

## BUY LOCAL

Green Kiwi have been providing safe specialty cleaning solutions for the contracting industry for a number of years, and we continue to develop new ones.

Our range of unique NZ made bitumen and asphalt cleaners are non DG, non-flammable and most importantly safe to use for both your staff and the environment.

## SAFE BITUMEN REMOVER

Proven safe cleaner for any tar based problems.

Safe Bitumen Remover is specifically formulated for the industry as a safer alternative to other similar products.

Non-flammable and non-DG, it easily lifts and removes bitumen, emulsion and other tar based products from any number of surfaces, e.g. vehicles, equipment, signs, cones & work clothing, as well as sprayers, paving machines and around the plant itself.

Our new formula has a lower odour profile and is safer than ever on plastics and vehicle trim. A friendly option for your workers and the environment.

For best results apply liberally, agitate. Always rinse clean with water.

AVAILABLE IN RUGGED WIPES, 5L, 20L, OR LARGER

**NON HAZARDOUS • NON DG • NON FLAMMABLE • SOLVENT FREE**

## SAFE PROTECTA WAX

Environmentally friendly bitumen barrier.

Safe Protecta Wax is a unique new natural gel cleaner & protectant for the underside of your vehicles and other plant & equipment to provide long term protection from the build-up of any type of tar-based matter.

Warmed Protecta Wax is sprayed or painted onto the surface to form a hard waxy coating which continues to clean & protect your precious equipment.

Waterblast to remove the wax.

AVAILABLE IN 10KG OR LARGER

**NATURAL • BIODEGRADABLE • NON TOXIC • PLEASE RECYCLE**

## SAFE SLIP AGENT

Reduce bitumen, asphalt & tar adhesion/build-up.

Safe Slip Agent is used on asphalt truck decks as a safe slip spray, on the slats in the plant, and on tools and paving equipment to keep things moving.

This new water-based cleaner & anti-adhesion agent is suitable for multiple applications, such as bitumen & asphalt release, cleaning or removal.

Biodegradable with a high flash-point, Safe Slip Agent is an effect, economical alternative to diesel-based products on trucks, tools & around the plant.

Simply spray on and leave to soak a while, Safe Slip Agent washes away with water & leaves no residue.

AVAILABLE IN 5L, 20L, OR LARGER

**CONCENTRATED • BIODEGRADABLE • ECONOMICAL • WATER-BASED**

## POW-R-CLEAN

Safe industrial super-degreaser.

Pow-R-Clean is a concentrated, non-acid, non-butyl, biodegradable super cleaner and degreaser made locally from Canadian ingredients to safely clean dirt and stains from any surface without hassle.

Highly effective when compared to other products, it works just as well in salt water! Penetrates to safely lift and remove diesel soot, oil, grease, brake fluid, bugs, pine tar & other dirt.

Customers use Pow-R-Clean in workshops on floors, parts, brakes, rubber & alloys. Other uses include cleaning of air filters, motorbike chains, venetian blinds & even garbage trucks. Use neat or dilute up to 10:1 for light work.

AVAILABLE IN 500ml aerosol, 5L, 20L, OR LARGER

**CONCENTRATED • NON ACID • NON BUTYL • BIODEGRADABLE**
