MADE IN NEW ZEALAND

Safer Concrete Remover is one of the most environmentally friendly products of its kind available in New Zealand. It effectively lifts concrete residue from vehicles, aluminium window frames, decks, equipment & tools with ease, even your gumboots!

Concentrated and safer to use than other products, Safer Concrete Remover is still corrosive, so ALWAYS WEAR PPE.

Note: Do not use on acid-sensitive surfaces such as zinc, terrazzo or laminates.

SAFER CONCRETE REMOVER EASILY REMOVES CONCRETE FROM MOST SURFACES  
ENVIRONMENTALLY FRIENDLY • READILY BIODEGRADABLE • EASY AND ECONOMICAL

Safer Concrete Remover removes concrete from most surfaces, including:

- vehicles
- sidings
- decks
- aluminium window frames
- foundations
- equipment
- machinery
- tools
- plastic
- paintwork
- iron, steel, stainless steel
- gumboots

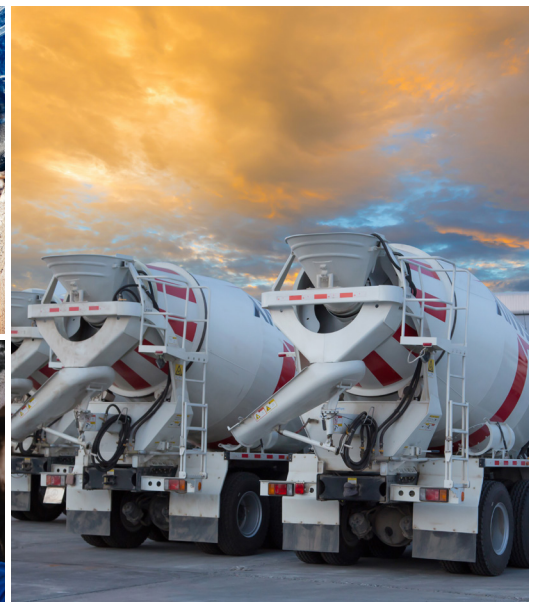

Safer Concrete Remover is harmful to the aquatic environment in large quantities, however, when flushed with plenty of water, small quantities of this product may be discarded to drains etc without any risk to the environment.

#### DIRECTIONS OF USE

- Heavy Duty: Use undiluted.
- Fresh concrete: Dilute 5:1 (20%) with water.
- Spray or brush on.
- Agitate or scrub with brush as required.
- Rinse off with plenty of clean water.
- Test on a small area to start.

Note: The wearing of PPE gloves and goggles/face shield is required **at all times** while using this product.

More information available on the safety data sheet (SDS).  
Available in 5L, 20L, 200L.
