Wall n All is a new building wash solution, with Hydrogen Peroxide to quickly remove soil deposits, as well as providing a one-off hit on moss or mould build up.

It's also safe for both users and aquatic life.

WALL N ALL • MADE IN NEW ZEALAND

SAFE TO USE • NON FLAMMABLE • NON DG

AVAILABLE IN 1L, 2L, 5L OR 20L • READ LABEL & SDS BEFORE USE

Wall n All is a locally made solution for hard or soft washing of exterior surfaces - it's made from eco-friendly, safe ingredients to ensure the minimum harm to the environment while still working effectively as a cleaner.

Wall n All comes as a concentrate so it's great value for money, and it works well on external surface including windows or solar panels to

clean off dirt and grime. And because it contains hydrogen peroxide you get the added bonus of a one hit moss & mould remover as well.

Use diluted from 20:1 down to 5:1 for heavy cleaning or moss & mould removal, and down to 50:1 for lighter work. Spray the surface well and leave to activate before washing clean with water before it dries to prevent streaking.
