

Green Kiwi Moss Blast

Safe Acticide Moss & Mould Killer

Moss Blast is a super concentrated non-DG, chloride-free solution which is very effective at controlling and eliminating moss, mould, lichen & other build-up both indoor & outdoor. And if you keep it damp it keeps on working for a long time.

Moss Blast is non caustic so it's safe on paint, rubber, plants & grass but avoid waterways and aquatic life. And it's highly concentrated for better value - 1 litre makes 50 litres of spray.

Dilute at 1:50 (20ml /L) for most work, or up to 1:5 (200ml /L) for heavy duty control. Spray on surface (out of direct sunlight) then wash away - or leave for longer term control. Keep damp for the best results.

Available in 5 litre or 20 litre sizes.

Green Kiwi - locally made, safe solutions.
