Disposing the product

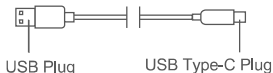

-  **Danger** Only disassemble in case of disposal.
-  **Li-ion** This product uses lithium ion battery. Avoid disposing it and recycle the battery.

Parts Description

■ Body

■ Cable (Charging • Power Supply)

■ Neck Strap

Using Method

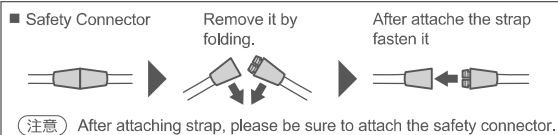

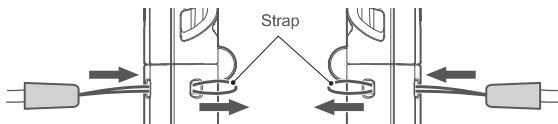

Fully charged before the first time usage.

- Press Power button to start and the action indicator light is lit.
 - Change the wind speed (5 levels + Rhythm) by pressing the power button.
- Min. → Weak → Medium → Strong → Max. → Rhythm → OFF

- If you press and hold the power button during operation, you can turn it off at any time regardless of the wind speed.
- When you turn it off, the fan stops and the indicator shows remaining battery amount. After the fan stops, the indicator flashes for around 40 seconds and lights out.

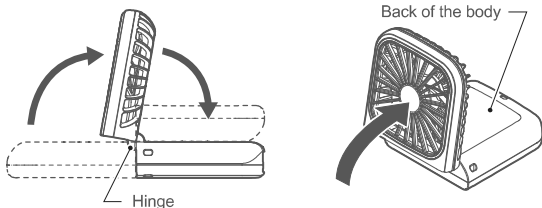

■ Neck Strap Hook

Remove safety connector and pass the neck strap completely through the hook to ensure that it is stable before use.

■ Adjusting angles

It can be rotated around the hinge to the back of the body

Indicator Display

[Battery]

●●●●●	75~100% remain
●●●●○	50~75% remain
●●○○○	25~50% remain
●○○○○	~25% remain

[Charging]

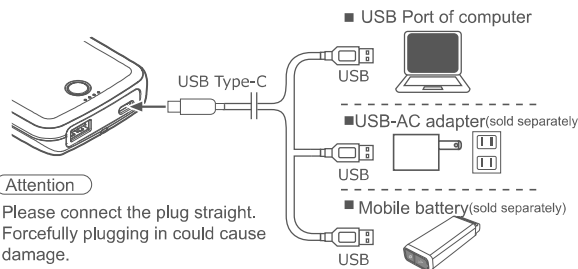

☀○○○○	~25% charged
●☀○○○	25~50% charged
●●☀○○	50~75% charged
●●●☀○	75~100% Charged
●●●●●	Fully Charged

Maintenance Method

- Make sure the power is off. Do not apply any maintenance while charging battery.
 - Use a fabric with neutral detergent diluted with water and wipe off to clean.
- * Do not use volatile organic solvent, such as thinner, alcohol, etc.
It may cause deformation or malfunction.

Charging Method

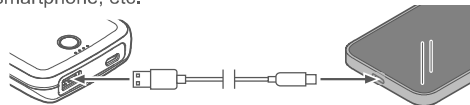

- Connect USB plug of the cable to USB port or output of USB-AC adapter, mobile battery (Sold separately).
- Attention** Only use the cable included.
- Plug USB Type-C plug to USB Type-C port on the bottom of the body.

- If the power supply capacity of the connected device is low, the charging time may be extremely long or cannot charge.
- When fully charged, remove the body from the charging stand.

Mobile Battery

- Connect USB plug to USB Type-A port at the bottom of the body.
- Insert the USB Type-C plug of the cable into the USB Type-C port of a smartphone, etc.

- The mobile battery function cannot be used while the fan is operating or charging the main unit.
- Do not connect the cable to the USB Type-C port and USB Type-A port at the same time. This may cause a malfunction.
- If connected, protection will be activated and the fan will stop.

- When fully charged, remove the cable from the body.

Lithium Ion Battery

- Battery cannot be replaced.
- Charge cycle is approx. 300 times. The length of time usable when fully charged gradually reduce.
- Recharge after discharging a certain capacity of the battery.
- Recharging the battery with nearly full charged status could reduce the battery life.
- Leaving battery not charged for a long period of time would shorten the battery life. Charge the battery **approximately 50% once a month.**

Specification

Input Voltage	: DC 5V 950mA (USB Rechargeable)
USB Port	: (Input) USB Type-C (Output) USB Type-A
Rechargeable Battery	: Lithium Ion Battery
Battery Capacity	: 2500mAh
Charging Time	: Approx. 4 hours
Continued Usage time	: Min. Approx. 3 hours ~ Max. Approx. 10 hours
Size	: Approx. 75 x 150 x 26mm
Weight	: Approx. 120g (Body only)
Material	: ABS (Body) / PP (Blade)
Set includes	: Body, Cable (Charging, Power Supply), Neck Strap, Instruction Manual
Antibacterial Parts	: Body

- *Charging time may require extremely longer if the power supply capacity is low.
- *Usable time vary depends on the wind power.
- *The antibacterial effect does not last permanently, and not effective for all types of bacteria.
- *The fan blade has no antibacterial effect.
- *Matte design is not antibacterial.
- *MARBLE design products have individual differences in the marble pattern.
