

# How to Use

## Instructions and Care

### ENGLISH

Universal head and neck support cushion for the backwash basin.

#### INSTRUCTIONS AND CARE

HeadBed is an innovative product designed specifically for hairdressing salons, to achieve optimal client comfort, support and safety at the basin. Consisting of a soft, durable head support and neck cushion, HeadBed will fit all standard backwash basins making it perfect for hairdressing salons, home salons, portable wash basins and aged care salon facilities.

#### HOW TO FIT HEADBED TO YOUR BASIN

**STEP 1:** Remove any existing foam or rubber padding from the edge of the basin and ensure the surface is clean and dry.

**STEP 2:** Position the HeadBed cushion on the basin with the head support platform on the inside and align the platform in the centre of the neck curve.

**STEP 3:** To secure the HeadBed into position, moisten only the suction cups and press firmly against the underside of the basin.

**STEP 4:** Choose the adapter plug that is most suitable for your basin. The plug functions to support the HeadBed platform and keep it level. We recommend the 30mm adapter plug for deep basins or the 20mm adapter plug for shallow basins.

**STEP 5:** HeadBed is in place and the basin is ready for use as normal.

#### CHANGING THE ADAPTER PLUGS:

To change the adapter plug, hold the head platform with one hand and, with the other hand, slide your fingers under the thin edge of the adapter and pull it away gently. Select the required replacement adapter plug and line up the 'H' while plugging the adaptor pins into place until they lock together. We recommend trialling each of the adaptors on your basin to determine the most suitable angle of support for your clients (The platform should be nearly horizontal). Keep the other adaptors nearby in the event that a client requests a different level of support.

**MAINTENANCE:** To keep your HeadBed in optimum condition, simply rinse off any chemical residue and wipe with a dry, clean cloth between clients and/or at the end of each day. Avoid using steel wool, scouring pads or any abrasive cleanser on your HeadBed as they will damage the surface. To clean the washbasin, simply pull HeadBed forward and off the basin. Clean your basin as normal, ensuring a clean, dry surface before placing HeadBed back into position.

**STORAGE:** HeadBed may be left on the basin, or stored safely in a cupboard or on a shelf.

**12 MONTH GUARANTEE:** HeadBed comes with a 12 month guarantee. Visit [www.headbedusa.com](http://www.headbedusa.com) for details.

**CONTENTS:** 1 x HeadBed cushion, 3 x HeadBed adapter plugs (20mm, 25mm, 30mm), 1 x instruction manual.

**Step 1** Remove any existing foam or rubber padding from the basin. Clean and dry.

**Step 2** Position the HeadBed on your basin.

**Step 3** Moisten only the suction cups and secure underneath.

**Step 4** Change the adaptor to suit your basin.

**Step 5** Your client's neck and head is now supported.
