- T1785 Black 1" STICK-EZE® Stick-On Letters

Cookie sheet(s), adhesive magnet sheets, cardboard, double-sided tape or stapler, and scissors

Directions:

- Cut four 11" x ¼" magnetic strips. Cut trimmers into strips that are just wider than the magnets and adhere magnets to backs.

- Stick the trimmer strips onto the cookie sheet to create the tic-tac-toe grid.
 - Cut 10 small magnetic pieces and attach to the backs of 5 heart and 5 star accents.
 - Create a label for the game using a trimmer. This is especially helpful if you create a variety of cookie sheet games. Reinforce the trimmer with cardboard and use magnetic adhesive strips to secure it to the top of the cookie sheet. Write the game title in stick-on letters. Now everyone will know this board is for tic-tac-toe!
 - Tape or staple two bucket accents back-to-back to create a pocket for storing the game pieces.
- Have fun playing and building tic-tac, top-notch strategy skills!
