

## ★ Featured Display

**Subject:** Character Education

**Learning Objective:** Celebrate achievements, positive behavior, and community spirit.

There's always something to celebrate! Make a celebration board that is all about students. Display a selection of signs from the set, leaving room for accents below each. Choose one of the signs as a header (as shown above), or use them all in the display.

Suggested themes for the signs include:

**We Rock!:** This sign is great for group recognition! Applaud class-wide achievements, teamwork, or attendance.

**Happy Day!:** Post happy notes, like comics, school-themed memes, or add a joke. This is also a great place to note exciting events, class parties, or field trips.

**Celebrate!:** Feature birthdays of students and staff, or important historical dates and people. Add stars accents to include a label like "Birthdays" or "History".

**Way to Shine!:** Choose shining moments from the week and let kids know you're proud. "I was proud when..." is always great to hear!

**Congrats!:** Recognize events that happen outside the classroom, like earning a scout badge, a ribbon for

[TRENDenterprises.com](http://TRENDenterprises.com)

artwork or dance, or doing volunteer work. Invite students to share pictures and bring in awards – they'll love showing what they're up to outside of school!

**WOW!:** Let kids know their improvements make WOW! moments. Acknowledge boosts in good behavior, listening and following directions, and more.

Gather around the display to applaud everyone's great work! It's fun to see how positive behavior motivates everyone to contribute in and out of the classroom community!
