# Step-by-Step Instructions

## 1. Choose your size

*Determine the finished size for your mat. A cutting mat with a measurement grid is helpful, but it isn't necessary. The mat that is pictured above is 20" by 15".*

## 2. Weave your pattern

*Cut trimmers into different widths and lengths. Have fun weaving and layering different colors and patterns together! If there's a specific mat size you need, make sure your trimmers extend at least to (if not past) that dimension.*

## 3. Finish the edges

*Finish the edges of your mat by covering with trimmer strips. It's ok if some of the inner trimmers overhang this final trimmer. When all is arranged how you like (and it is square), tape them down and cut off any excess trim.*

## 4. Tape or glue into place

*Weaving holds the trimmers mostly in place, but you may also tape them together on back. For a finished look, glue colorful paper on the back and laminate to protect your place mat. These are sure to brighten any space!*
