WUNDERLUST

Resort 24

Inspired by the distinct beauty and romanticism of Indian artworks from the 16 and 1700's; the elegance and escapism of Indian extravagance. Resort 24 is full of optimism and effervescence. Wanderlust is an invitation to feed the soul, to seek out beauty and to feel the sun on your skin.

In collaboration with traditional artisans, Indian hand block printing and dying continues to be at the center of the collection. With archival wood blocks selected and skilfully placed across silk habotai, soft cotton voile and fresh linen, this seasons prints draw on the motifs and story telling found in the early Indian artworks. Vibrant, glowing colour and motifs that signal prosperity, beauty, divine force and the power of life.

Embroidery is applied to hand block printed fabrics, finished with hand shell details, an homage to artisan craft.

Hand Crochet continues to be an important element of the Hannah Artwear collection, offering a capsule of beautifully wearable pieces that showcase the skill of the makers.

Silhouettes reflect a desire to provide luxury in the everyday; ease, beauty and femininity. Attention to hand finishing and trim detailing has been made throughout the collection with a desire to elevate each piece; to create a garment treasured by both maker and wearer.
