

HANNAH

Resort '22
Romance is Ritual

Gestures of symbolic ritual take root and through delicate repetition a considered life is imbued with a romantic and esoteric quality; the soul and the senses soar. The delicacy and tenderness of domestic space becomes fertile ground to explore the unleashed spirit, encapsulated in the overgrowth of wild florals left to twist and shape into fresh forms. Vivid color and floating shades of dusk pinks, crisp greens and cool blues awaken the senses with an energetic frequency of an ancient wisdom. Resort 22 is an homage to a sacred femininity and a oneness of being.
