Bella Luna

Prefall '23

Bella Luna was built around the stories told of the moon and the stars. Of the day and night, renewal and prosperity. Stories of the Gods, and the Man in the moon.

The colours of Rajasthan as the moon rises and sets, are transformed into fabrics that have been dyed and printed by the hands of the city's masterful artisans.

As our planet orbits the sun, we are all connected, we all sleep, we dream and wake to a new day.
