This letter confirms that Global Medical Solutions (GMS) NZ Ltd is approved by the Director for Radiation Safety as a personal dosimetry monitoring service provider in New Zealand.

Conditions of the approval

- 1 The above approved service provider must comply with the Radiation Safety Act 2016 and its subordinate instruments (eg, codes of practice) when providing dosimetry services.
- 2 The above approved service provider must return results within 20 working days of receiving all necessary raw information.
- 3 The above approved service provider must maintain its RDC ISO17025 certification. Any changes that have been made to the current certification must be notified to the Director for Radiation Safety within 5 working days for review.
- 4 This approval is valid until it is revoked by notice in writing.

Wellington, 18 October 2019

Dr Andreas Markwitz

Director for Radiation Safety
