

ステイヤーの商品紹介

**STAYER**

# STAYERの由来

# STAYER

STAYER literally translates to “long-distance running horse”. You can use it for a long time with attachment (running), powerful (durable) I named it with this image. A horse is an auspicious animal that is depicted on votive tablets. The logo is colored with a seat color with a riding ground as a motif.

—Wheelchair that can coexist for a long time, STAYER—

# STAYERとは

# ① Ease of use

① Set to a pusher height that is easy for a caregiver to push.  
Pusher height 91.5 cm (improved operability)

② The back pipe is angled,  
making it easy to row  
(improved operability)

So that a wide range of  
people can use it Front  
seat height is 47 cm

Longer tipping bar  
Enables smooth step-  
crossing (improved  
operability)

Foot support  
Length  
adjustment  
in 4 stages  
(34/36/38/40cm)  
(sitting comfort  
improves)

## ② Durability /Maintenance

Assistance brake lever and interlocking brake are new mechanisms Reduced wire trouble (improved durability)

Handrim is removable  
Easy to replace parts  
(improved maintainability)

Elbow pads with no protrusions around the hands  
Easy replacement  
(maintainability + safety improvement)

Strong resin  
Hard-to-break side plate  
(Durability UP)

# Customer's Voice

- I want a product that can be disinfected with 70% alcohol (ethanol) and 50ppm hypochlorous water. Or, please let us know which existing products can be used.
- Corona countermeasure products We would like to propose wheelchairs that take measures to prevent infection. "There was a voice." Specifically, a wheelchair that can handle hypochlorous acid.
- Wheelchair or preventive goods for preventing corona infection "Are there any products that specialize in prevention?" Or sell infection control goods "Do you?" I have an inquiry like this.

## STAYERの特徴

The two new sheet colours are easy to care for. It is generally said that the alcohol concentration at which the sterilization effect is exhibited is 60 to 70%, but mint has been confirmed to be resistant to 80% alcohol. It can also be cleaned with diluted sodium hypochlorite for hygienic cleaning.

\*Regarding the handling of chemicals, please refer to the product. Please follow the instructions on the package and website.

完成車として薬品に耐性があるわけではありません!

# ・寸法

## SY22-45

\*各寸法には、シート・シートクッション等の厚みは含まれません。

Folded dimensions (cm) ...

Overall Length: 95.5 x Width 32 x Height 71

Wheels: 22in high polymer (no puncture)

Weight: 13.3kg

## SY16-45

\*各寸法には、シート・シートクッション等の厚みは含まれません。

Folding dimensions (cm)...

Length: 86.5 x Width 28 x Height: 71

Wheels: 16in high polymer (no puncture)

Weight: 12.2kg

# BM-SとSY比較

	BM-S	SY
image		
Front seat Height	43cm	47cm
Pusher Height	86.5cm	91.5cm
Tipping Bar	11cm	14cm
Step Height Adjustment	3 level	4 level

Better than BM-S
The seat height is high, so even tall people can ride.
The height of the pusher makes it easier for a caregiver to push.
The tipping bar becomes longer, allowing you to go over bumps smoothly.
The adjustment range is expanded, and the comfort of sitting is improved.

Aspect	Advantages over BM-S
Back Pipe	When rowing the wheelchair, the pipe around the shoulder blade is angled, making it easy to row.
Elbow Pads	Since it is fixed from the side, the bolt does not come into contact with the hand and is safe. It is also easy to replace parts.
Hand Rim	Removable and easy-to-replace parts. (For rental)
Foot Step	The gap between the steps must be within 2 cm for wide steps. No need to worry about your feet falling.
Interlocking Brake	The assistance brake lever and interlocking brake mechanism are new, reducing wire trouble.
End Cap	It has a drainage hole and is easy to dry when washed. (For rental)
Side Plate	A side plate that is hard to break using strong resin.
Back Seat	Back seat design for easy parts replacement. (For rental)
