

# SIZE GUIDE

## HOW TO PRINT THIS SIZE GUIDE?

- Print this page to estimate your wrist circumference for correct bracelet sizing.
- Compare the bracelet sizer with a ruler to ensure that the sizer printed at the correct scale, e.g. place a ruler at 0 and measure that the 6 inch mark is the equivalent.

## HOW TO MEASURE YOUR SIZE?

- Cut out the entire bracelet sizer. Cut through just half the sizer at the "cut here" line.
- Place the sizer around the wrist to be measured. Pull the end through the slit "cut here".
- Ensure that there is enough room left around the wrist to allow for an index finger to fit through.
- Read the measurement as it appears through the slit.

Cut Here
