

## Lugano

Gevril's diamond studded Lugano collection is a treasured piece of art worthy of a gallery. Soft, romantic and symphonic lines make this no ordinary timepiece but one built for the ages.

Clear inspiration from its namesake city, Lugano comes to life in this exceptional piece with its Swiss movement and Italian design. Lugano's outstanding 36mm stainless steel case has a unique design reminiscent of a concerto violin, hearkening to Lugano's neoclassical palazzi.

A stunning colored inlay surrounds the mother of pearl inner dial. The well-designed inlay highlights 10 diamonds and Roman numerals at 6 and 12 strengthening its classic appeal.

Select a genuine Italian snake textured leather strap or bracelet with a deployment buckle to finish this nearly musical creation.

With unique history and influence, Lugano is like fine Renaissance art, delightfully curved lines and a touch of fine diamonds. Lugano is a cherished work that sings.
