**GEVRIL**

Potente Instruction Manual

## Winding

This watch is equipped with an Automatic Swiss Movement. For first time use or extended period of non use the watch should be wound manually 40 clockwise turns in position A. When the watch is being worn the mechanism winds itself automatically.

## Setting the Time and Date

To set the date pull crown to position B and turn counter clockwise. To set the time pull crown to position C and turn either direction.

You should not change the date between 9:00 PM and 2:00AM.

Always make sure the crown is locked in position to ensure resistance to water.
