

With as sophisticated a construction as fine classical music, GV2's Men's Rovescio Collection hits every note. Italian for reversed, the Rovescio Swiss Quartz timepiece is equally striking moving forward or backward.

Rovescio Collection is for the uncompromisingly polished with intricate tastes. The Kaleidoscope patterned dial and repeated design on the case back is arpeggio layering with adagio speed. The ultramodern 42mm stainless steel case and genuine Italian leather band with tang buckle highlight the large date window at 12 o'clock and day of the week indicators below.

Suave, worldly and sophisticated, this collection captures the best of fine art and technical design in the spirit of true allegro. In navy, black, burgundy or brown options,

Rovescio never misses a beat.

Rovescio Instruction Manual

Cal. 6203.B

Crown A

Pos. I Position of rest (watch running)

Pos. II Quick-change correction for date

The date can also be corrected during the day-changing phase between 10.00 pm and midnight. The date of the following day has to be set, because no automatic date change takes place at midnight.

- Pull the crown out to position II (watch still running).
- Turn the crown clockwise until the required date appears.
- Push the crown back into position I.

Pos. III Setting the time (both time zones together)

- Pull the crown out to position III (watch stopped).

Cal. 7003.N

Cal. 7004.N

Cal. 7004.P

Pos. I Position of rest (watch running)

Pos. II Quick-change correction for date

The date can also be changed during the day-changing phase between approx. 8.00 pm and midnight. The date of the following day has to be set, because no automatic date change takes place at midnight.

Cal. 6203.B

Crown B

Pos. I Position of rest

Pos. II Setting the time of the 2nd time zone

During the time setting of the 2nd time zone, crown A must be in position I.

- Pull the crown out to position II.
- Turn the crown, until the desired time is displayed.
- Push the crown back into position I.

Cal. 7003.L / 7003.N / 7004.N / 7004.P

Pos. III Setting the time

- Pull the crown out to position III (watch stopped).
- Turn the crown, until the current time is displayed (remember the 24-hour cycle).

- Push the crown back into position I.

Setting the day of the week
There is no quick-change correction available for setting the day of the week.

- Pull the crown out to position III (watch stopped).
- Turn the hands forward by turning the crown, until the current day of the week appears.

- Push the crown back into position II and set the current date using the quick change correction.

- Push the crown back into position I.
