

Only the best for ISE's Munich Headquarters

Peerless-AV[®] Supreme Video Wall Mounts
installed in new collaboration space

CASE STUDY

SEPTEMBER
2018

Integrated Systems Events, organisers of Integrated Systems Europe, the Digital Signage Summit Series and other leading B2B events for the professional audio visual, electronic systems integration and IT industries, has installed a recessed 1x4 video wall in its Munich headquarters using award-winning quick release video wall mounts from AV technology pioneer Peerless-AV®. The mounts have helped create a new collaboration and meeting space for ISE staff and visitors.

The video wall features 4 x Mitsubishi 55” Displays mounted in portrait orientation on Peerless-AV DS-VW775-QR SmartMount® Supreme Full-Service Video Wall Mounts with Quick Release – an award-winning mount that offers a host of innovative, time and cost-saving installation features.

“Serviceability was a key requirement for this in-wall install as we needed to be able to take them out for future inspection and service,” Mike Blackman continued. “The Peerless-AV quick release mounts were a great fit for their gentle push/pull feature giving quick access to the recessed displays. Our installation team found them easy to handle, position and align to achieve a professional finish.”

Incorporating tool-less lateral micro-adjustment, the DS-VW775-QR provides 38mm (1.5”) of fine tune adjustment on each of the X, Y and Z axis. Its press to release pop-out feature provides quick and convenient access to a recessed display without searching for hidden pull strings, and it comes with reusable display-dedicated wall plate spacers for both portrait and landscape applications.

Weighing 2kg lighter than previous Peerless-AV video wall mounts, the DS-VW775-QR facilitates an effortless one-person install, especially when combined with the install app and spacers. Using the easy hang keyhole adaptor plate, a single installer can simply hook the mount onto the wall so their hands are free to secure it.

“This is a great example of how our Supreme Video Wall Mount makes serviceability simpler, particularly in recessed wall applications, and we were pleased to be able to help ISE achieve their objectives in this project,” said Keith Dutch, Managing Director - EMEA, Peerless-AV.

“

The video wall is installed in our lunch room which doubles up as an extra meeting space. It gives us more flexibility for presentations, and we’ll be incorporating other AV solutions to increase the collaboration potential for the space.

”

Mike Blackman
Managing Director, Integrated Sisetms Events

About Peerless-AV®

ISE MUNICH HQ
CASE STUDY

For over 75 years, passion and innovation continue to drive Peerless-AV® forward. We proudly design and manufacture the highest quality products, ranging from outdoor displays to complete kiosk solutions, digital signage mounts to wireless systems. Whether a full-scale global deployment or custom project, Peerless-AV develops meaningful relationships and delivers world-class service. In partnership with Peerless-AV, you are trusting an award-winning team of experts who will support your business every step of the way. For more information, visit peerless-av.com.
