

ISE 2019 REVIEW

Outdoor and LED Showstoppers on Peerless-AV's stand at ISE 2019

Watford, UK, 14 February 2019 – AV technology pioneer Peerless-AV® stepped up to the challenge of making ISE 2019 the best year yet with showstopping demonstrations of indoor and outdoor LED, weatherproof displays and stylish kiosks at the forefront of the stand in Hall 12.

The Xtreme™ High Bright Outdoor Display, shown in 43", 49" and 55" sizes, was a key highlight, and was named Digital Signage Technology of the Year at the InAVation Awards 2019 ceremony, held on Tuesday 5th February. Visitors to the stand were encouraged to get hands on with two demonstration chambers that tested the Xtreme's IK10 toughened glass and IP68 rated, fully-sealed, waterproof design.

An Electric Vehicle Charging Station, featuring two 55" Xtreme High Bright Displays, was a popular talking point on the stand as the surge in this emerging market continues. Next to the EV kiosk, a new Back to Back Outdoor Smart City Kiosk, featuring touch screen and audience measurement capabilities, proved the appeal of these stylish solutions for any application, including QSR drive thru menu boards, transportation information, retail advertising, stadium wayfinding and many more.

Peerless-AV's Outdoor LED Mounting solution was shown for the first time at ISE 2019, alongside further new additions to the LED portfolio, including mounts to support different angles and waved configurations, and a modular range designed to simplify the specification and ordering process.

Peerless-AV also exhibited its new ceiling mount solution for the Samsung OMN-D Dual Sided Display for the first time. Ideal for in-window applications, this floor and ceiling mountable solution fits 46" and 55" Samsung screens.

Concepts for a new modular component series aimed at the Video Conferencing market were showcased. This Extrusion Range was shown in bolt to floor and floor to wall, single and dual upright configurations as examples of the many options achievable to suit the professional and aesthetic requirements of the corporate market.

In addition, Peerless-AV showed its Gen 2 KIPICT2555 Fully Integrated Interactive Kiosk and a Universal Indoor Floor Standing Portrait Kiosk with wheeled base, a new feature that facilitates easy maneuverability for perfect positioning in any location.

A selection of Peerless-AV's core wall mounts, video wall mounts and projector mounts were also on the stand. For more information on the above products and solutions, visit www.peerless-av.com. Follow the latest news and updates on [Twitter](#), [Facebook](#), [LinkedIn](#), and [blog](#).
