

Must See Mount Innovations by Peerless-AV at InfoComm India 2023

Exhibiting the new, game changing Universal dvLED Mounting System on Booth C35

St Albans, UK, 12 October 2023 – AV technology pioneer Peerless-AV[®] will be showcasing its new SEAMLESS Kitted Series Universal dvLED Mounting System (DS-LEDUNV) for latching dvLED displays at InfoComm India 2023, 25-27 October, Jio World Convention Centre, Mumbai. This kitted solution is feature-packed to offer superior flexibility and scalability when installing flat-to-wall dvLED video walls, saving valuable time and costs versus dedicated mounts. See the unique quick-connect clamps and industry-leading X, Y and Z axis adjustment in action with Unilumin Upanel II cabinets on Booth C35.

Shipping globally since June 2023, the DS-LEDUNV is showing in India for the first time. The mount's universal design means it is compatible with a variety of latching dvLED displays, resolving historical cabinet standardisation challenges and offering reconfigurability in the event of project changes. Using the installer-friendly wall template, the lightweight aluminium mounting frame quickly and accurately attaches to the wall, and the quick-connect clamps easily attach along the frame to facilitate latching of the cabinets. Achieve a perfectly flat, seamless finish on uneven wall surfaces with the mount's display adaptors and tri-axis adjustment.

Also on the booth, Peerless-AV will be showing LCD video wall mounts, specifically the DS-VW775-QR SmartMount® Supreme Full-Service Video Wall Mount (for 46” to 60” displays) and the DS-VW795-QR SmartMount Full-Service Video Wall Mount with Quick Release (for 65” to 98” displays). Designed for fast and easy service access in recessed video wall applications, both mounts provide versatility for integrators. With the quick-release functionality, users can articulate the display from the wall by gently pressing on the front of the display. Featuring 8-point tool-less micro-adjustment, the mounts can overcome uneven walls and custom spacers speed up installation, reducing time and costs.

A range of standard flat, tilt and articulating mounts will be shown alongside to demonstrate the wide selection of solutions Peerless-AV offers to suit all professional application needs. The SR560G Flat Panel Trolley (for 32” to 75” displays) and ACC-SB2 Universal UC/VC Soundbar Mount will also be demonstrated to show a full solution for workplace optimisation.
