

## **Peerless-AV® Exhibits Stand-out Solutions for Corporate, Retail and Digital Signage at GITEK 2019**

*Visit Peerless-AV on the Almo Digital Solutions stand, #H3-G10*

**Watford, UK, 1 October 2019** – AV technology pioneer Peerless-AV® will return to GITEK Technology Week at the Dubai World Trade Centre, 6-10 October 2019. Taking a larger space on the Almo Digital Solutions LLC stand H3-G10, Peerless-AV will be exhibiting a broader range of products addressing the needs of diverse markets including corporate, retail, government, hospitality, education, transportation, digital signage and more.

Products on stand H3-G10 will include a 55" Xtreme™ High Bright Outdoor Display with Outdoor Soundbar, Fully-Integrated Interactive Kiosk, Rotational Wall Mount for the Samsung Flip, Supreme Full-Service Video Wall Mount with Quick Release, Universal Projector Mount for heavy duty projector models and a Floor to Ceiling Cable Mount.

Showcasing for the first time at Gitex, will be the DSF265L Floor-to-Ceiling Cable Mount catering for retail and commercial application settings where a subtle mounting solution is required or where mounting to walls is not an option. Suspended on high tensile steel wire, the mount creates a secure and stable foundation, which facilitates flexible positioning for flat panel displays up to 65", with landscape or portrait versions available to accommodate up to a maximum weight of 29.5kg.

The PJR125-POR Universal Portrait Projector Mount for Projectors up to 56.7kg (125lb) will also be showing for the first time at Gitex. Ideal for holding an LCD/LED, laser or large venue projector in portrait, landscape or floor orientation, the PJR125-POR provides the ultimate in mounting flexibility with a robust design and the largest mounting pattern in the market.

Alongside the above, Peerless-AV will be showing the new XHB552 Xtreme™ High Bright Outdoor Display, featuring the widest operating temperature range (-35°C to 60°C,) and the highest environmental rating in its class (IP68). The KIPICT2555 Fully-Integrated Interactive

Kiosk, powered by BrightSign®, will also be on the stand. Incorporating a 55" commercial grade LCD display with six simultaneous points of IR touch interaction, the kiosk is designed for 24/7 audience engagement.

Furthermore, Peerless-AV's new Rotational Wall Mount for the 55" Samsung Flip will be on the stand with the DS-VW775-QR SmartMount® Supreme Full-Service Video Wall Mount with Quick Release. The RMI3-FLIP allows users to easily rotate the Flip display 90° from landscape to portrait, and holds it at a negative 4.5°, further promoting ergonomics with a more natural angled writing surface. The DS-VW775-QR can be used for both landscape and portrait configurations, offers no-tools-required fine tune adjustment on the X, Y and Z axis, has a gentle press to release feature and enhanced cable management. The mount is also lightweight for convenient handling and incorporates an easy hang wall plate to facilitate a one person install.

See all these products and more on the Almo stand H3-G10 at GITEX Technology Week 2019.
