

## Peerless-AV<sup>®</sup> Announces Availability of 86" UltraView™ UHD Outdoor TV in EMEA

*UltraView™ durable, 4K Outdoor TVs designed for quality outdoor entertainment*

**Watford, UK, 15 April 2020** – AV technology pioneer Peerless-AV<sup>®</sup> is pleased to present the new all-season outdoor TV, the 86" UltraView™ UHD Outdoor TV (UV862-EUK). Providing 4K resolution and a brightness that is three times that of the average of indoor TV, the new 86" UltraView™ UHD Outdoor TV provides an exceptional viewing experience for invigorating entertainment in outdoor spaces such as bars and restaurants, stadiums, hotels, cruise liners and more.

Peerless-AV's 86" UltraView™ UHD Outdoor TV delivers dependability year-round, operating at a temperature range of -30°C to 50°C. Aluminium construction materials provide the ultimate protection against various climates, corrosion and discoloration. The model is equipped with a High TNI panel, which allows for direct sunlight readability without the risk of isotropic blackout, and internal speakers provide excellent sound quality.

The 86" UltraView™ UHD Outdoor TV exclusively includes a dedicated Outdoor Flat Wall Mount to provide a secure installation. Other features include an ambient light sensor that

automatically adjusts screen brightness to best match the lighting conditions, and an IR extender input and IR repeater output for providing flexibility for integration with control systems.

“We’re pleased to announce the availability of the 86" UltraView™ UHD Outdoor TV in EMEA after a successful first time showcase at ISE 2020 in Amsterdam,” said Keith Dutch, Managing Director – EMEA, Peerless-AV. “As well as the CEDIA Home Install and hospitality market, the product is ideal for outdoor sports bars, throughout stadium concourses and many more applications. The outdoor TV provides customers with a safe, enhanced display option that is bright enough to be viewed in direct sunlight and intelligent enough to automatically adjust brightness for low light viewing.”

The 86" UltraView™ UHD Outdoor TV comes with a rich feature set, inclusive of:

- Operating temperature range of -30°C to 50°C
- IP55 rated for all-weather conditions
- High TNI panel allows for direct sunlight readability without the risk of isotropic blackout
- IPS panel allows for accurate colour representation when viewing off axis
- High brightness (900cd/m2) combats high ambient lighting conditions
- USB media support allows still images, video and audio to be played from an attached USB flash drive
- IR extender input and IR repeater output provides flexibility for integration with control systems
- Supports HDMI 2.0 and HDCP 2.2 for increased compatibility with 4K sources
- Waterproof universal remote can control up to 3 additional devices
- Internal speakers provide excellent sound without detracting from the TV’s aesthetics
- Includes a Peerless-AV Outdoor Flat Wall Mount to provide a secure installation

The UltraView™ TV is functional for all seasons, built with materials meant for safe use outdoors without risk of shock or failure, and transforms any high-end outdoor area.

Peerless-AV’s 86" UltraView™ UHD Outdoor TV will be available in May 2020 through Peerless-AV’s authorised network of distributors and resellers.
