

Peerless-AV® To Unveil World First in dvLED Mounting at ISE 2023

Ahead of the curve, Peerless-AV showcases latest innovations in its SEAMLESS Bespoke, Kitted and Kitted+ range of dvLED mounting solutions

St Albans, UK, 24 January 2023 – AV technology pioneer Peerless-AV® will be unveiling a world first showing of the next generation in dvLED mounting on Booth 3F700 at ISE 2023, Fira Barcelona, 31 January to 3 February. Visitors to the booth can book an exclusive viewing and be one of the first to receive an introduction to this unique product set from one of Peerless-AV's expert team.

Keith Dutch, Managing Director – EMEA, Peerless-AV, commented: “With this world first at ISE, Peerless-AV is once again setting standards and affirming its expertise not just in dvLED mounting but large scale, complex and challenging infrastructure on a global level. Now is the time to show the industry what they’ve been missing and how it will change the future of the dvLED video wall installation market.”

Alongside this showcase, Peerless-AV will be presenting multiple demonstrations of its SEAMLESS Bespoke, Kitted and Kitted+ mounting solutions for the leading dvLED display brands. Making their debut will be the latest updates to the SEAMLESS Kitted and Kitted+ solutions, including trolley, floor stand and floor to wall substructure offerings; for installs where mounting to a ceiling or floor may not be possible or where a mobile, temporary option is required.

A custom curved dvLED display wall will be shown using 8 x 4 Absen PL Pro dvLED cabinets mounted on SEAMLESS Bespoke infrastructure. Precision engineered with the most exacting of tolerances and Z-adjustment, these solutions are a must have for dvLED deployments requiring creative shapes, aggressive corner wraps or concave/convex curves.

Visit the Peerless-AV booth #3F700 at ISE to see all this as well as the new Smart City Kiosk range, including single sided (KOP55XHB-EUK) and dual sided (KOP55XHB2-EUK, the new 75" Xtreme High Bright Outdoor Display (XHB754-EUK) and a host of mounting and support solutions designed for a safe, quick and easy installation experience.
