

ISE 2018 PREVIEW - #12, F90

Peerless-AV® Introduces IF Mount for Samsung Direct View LED Displays

Being showcased at ISE 2018, the new dedicated mount offers a modular solution for creating seamless video walls

Watford, UK, 29 January 2018 – AV technology pioneer Peerless-AV® today announced the new IF Mount for Samsung Direct View LED Displays. This dedicated solution is ideal for creating large video walls in public and non-public spaces, such as corporate lobbies, stadiums, airports, shopping malls, train stations, control rooms, and more. The IF Mount is a modular solution that comes kitted together out-of-the-box for a simplified installation.

“With this dedicated mount for our Direct View LED Displays we can support video wall installs of any size and configuration,” said Damon Crowhurst, Business Unit Director, Displays, at Samsung Electronics Europe. “Peerless-AV is a valued mounting partner of Samsung and this demonstrates our ongoing commitment to offering complete solutions to meet the needs of our end customers.”

The new mount securely holds the Samsung IF display to form a properly-aligned, seamless video wall. Key features include height adjustment to overcome installation irregularities and assure LED pixels are aligned, and depth adjustment to create one flat plane, regardless of wall imperfections. Predetermined adaptor rail locations speed up assembly and minimise errors and a low-profile, lightweight frame reduces wall load while making installation easier. Wall plate spacers reduce the need for measuring and ensures the wall plates are installed in parallel. Its modular design offers unlimited video wall display configurations.

The design of Peerless-AV’s IF Mount is focused on speed and ease of installation for installers of all experience levels. As the pixel pitch becomes smaller and smaller, the alignment of the pixel from display to display traditionally becomes increasingly difficult. With the adjustments offered by Peerless-AV, installers easily overcome issues for end-customers with the highest expectations.

Peerless-AV’s IF Mount for Samsung Direct View LED Displays will be showcased at ISE 2018, from February 6-9 in Hall 12, Stand F90.
