Peerless-AV’s New SmartMount® Supreme with Quick Release at ISE 2018

Watford, UK, 5 February 2018 – AV technology pioneer Peerless-AV® will showcase the SmartMount® Supreme Full-Service Video Wall Mount with Quick Release at ISE 2018, Hall 12, Stand F90. Designed with the needs of integrators and end users in mind, the DS-VW775-QR offers innovative, time-saving installation features, including tool-less micro adjustment, easy hang wall plate for an effortless one-person install, quick release mechanism and reusable spacers for both portrait and landscape applications.

With the addition of tool-less lateral micro-adjustment, the DS-VW775-QR offers 38mm (1.5”) of fine tune adjustment on each of the X, Y and Z axis. Installers can easily locate the red adjustment knobs during set up and future video wall maintenance visits. Serviceability is easier than ever before with the press to release pop-out feature, providing quick and convenient access to a recessed display without searching for hidden pull strings. The gentle release mechanism requires less pressure to pop-out a display than other video wall mounts, giving peace of mind that the delicate pixel structure will not be damaged from pressing too hard on the display front.

Reusable spacers can be used for both portrait and landscape applications resulting in a faster and lower cost install. Enhanced cable management allows the cables to effortlessly travel in and out with the display, eliminating the chance of interfering with the mount.

The standard version DS-VW775, launched in 2016, has the same feature set but offers unique red pop-out levers above and below. When the mount is fully extended it offers an extra 2” of service space from the wall compared to the DS-VW765-LQR/PQR Full-Service Quick Release Video Wall Mount.

Both Supreme models weigh significantly less than previous Peerless-AV video wall mounts. The DS-VW775-QR is 2kg lighter and the DS-VW775 is 4.5kg lighter than the DS-VW765-LQR Full Service Quick Release Video Wall Mount, for example. This makes them even easier to handle and position, especially when combined with the install app and reusable display-
dedicated wall plate spacers. Using the easy hang keyhole adaptor plate, a single installer can simply hook the mount onto the wall so their hands are free to secure it – a valuable on-site time and cost saving feature.

The DS-VW775-QR and DS-VW775 support 46” to 60” displays with a maximum load of 56.8kg (125lb) and VESA pattern up to 400 x 400 (which can be extended to 600 x 400 and 800 x 400 with adaptors). Included security hardware makes the DS-VW775-QR suitable for public environments to deter tampering and theft.

The Supreme Full-Service Video Wall Mount with Quick Release is available and stocked now in Europe. For more information on the full range of Peerless-AV mounts and solutions visit www.peerless-av.com.
