

## RING SIZE GUIDE

# Find the Perfect Fit

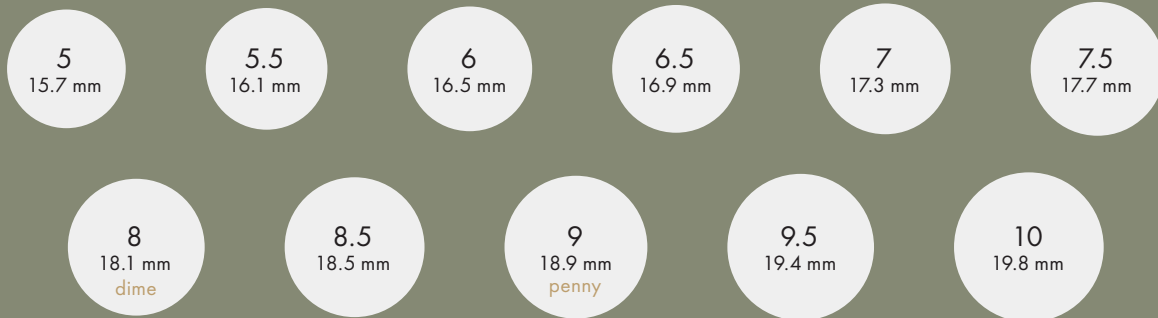

Before you start to measure, be sure that this guide is printed to full size on US letter paper for a true to size fit. To check the accuracy of your print, position a credit card on the line below or place the appropriate coin on the labeled circle below. If the card or coins line up, your all set!

### METHOD 1:

## Measure By Matching Your Ring

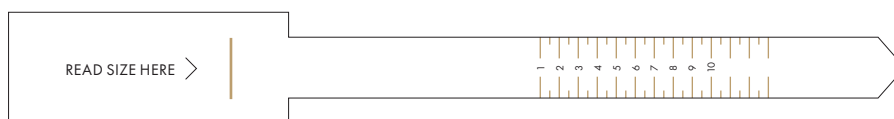

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the below circles. When your ring has been placed on your correct size, you should only see the white circle inside the ring. If your ideal fit falls between two sizes, we recommend choosing the larger size.

### METHOD 2:

## Measure With A Ruler

After you cut out the ruler below, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily.
