Hazardous Product	No. CAS	% (weight)
Sodium bicarbonate	144-55-8	99,5-100,5%

### SECTION 4 - FIRST AID MESURE

<b>Inhalation:</b>	IF INHALED: remover person to fresh air and keep comfortable for breathing. If not breathing, if breathing is irregular or respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention.
<b>Skin contact:</b>	IF ON SKIN: If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing/ jewellery and wash it before reuse. Apply moisturizing cream in case of dry skin.
<b>Eye contact:</b>	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
<b>Ingestion:</b>	NEVER give anything orally if victim is losing consciousness, is unconscious or having convulsions. Rinse mouth with water thoroughly. DO NOT INDUCE VOMITING. Ask victim to drink two (2) glasses of water. If vomiting occurs naturally, lean victim forward to reduce risks of aspiration. Continue to drink water. Obtain medical care.
<b>Note to physician</b>	No specific treatment. Treat according to symptoms. Contact a poison center immediately if large quantity has be ingested.

### SECTION 5 - FIRE-FIGHTING MEASURES

<b>Suitable extinguishing media:</b>	In case of fire: Use water, foam, CO2, dry chemical to extinguish.
<b>Unsuitable extinguishing media:</b>	Stream of water directed into the product will generate large amounts of foam.
<b>Hazardous combustion products:</b>	
<b>Protective equipment:</b>	Fire-fighters must wear protective equipment and NIOSH approved self-contained breathing aparatus.
<b>Precaution:</b>	Retain water run-off. Move containers away from fire area if without risk. Use water spray to keep containers cool. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.

### SECTION 6 - ACCIDENTAL RELEASE MEASURES

**Protective equipment:**

## Sodium Bicarbonate

Wear plastic or rubber gloves if large quantities of bulk are handled. (See Section 8) wear respiratory equipment if ventilation is inadequate.

### Containment and clean up:

Ventilate spill area. Stop spill if safe to do so. Contain and absorb with an inert absorbing material (sand, earth, vermiculite, diatomaceous earth) for future disposal (See Section 13). Prevent spill from entering sewers or waterways. Retain water run-off if applicable. Inform proper authorities if necessary.

### Environnement precaution:

Avoid entering sewers, waterways or restricted areas. Eliminate according to municipal provincial and federal regulation.

## SECTION 7 - HANDELING AND STORAGE

### Precaution for safe handling:

Containers must be identified correctly. Handle in a well ventilated area. Avoid contact with skin, eyes and clothing. Keep container tightly closed. Maintain good personal hygiene before eating, drinking or smoking. Do not eat, drink or smoke while using the product or in proximity. Wash contaminated clothing before reuse. Do not ingest. Avoid breathing vapours or mist. Wear appropriate respiratory equipment if ventilation is inadequate. Do not enter storage or enclosed areas if ventilation is inadequate.

### Condition for safe storage:

Store in a well-ventilated place. Keep cool. Store away from incompatible materials. Keep containers closed.

### Incompatible materials:

Strong acids, oxidants. The product does not polymerise.

### Incompatible condition:

Sources of ignition. Direct sunlight.

## SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

### Exposure limits:

Ingredients	OSHA PEL		TWA	STEL
	TWA	STEL		
Sodium bicarbonate	No data	No data	No data	No data

### Engineering controls:

Local ventilation system is recommended to maintain concentrations of contaminants below exposure limits.

### Protection of airways:

Not required if ventilation is adequate. Wear a NIOSH approved respiratory equipment if concentrations are superior to recommended maximal limits.

### Protective equipment and clothing:

Wear chemical / impermeable gloves or other protective clothing to prevent repeated or continuous contact with the skin during handling and usage. Wear goggles to prevent mist, vapours or dust to contact eyes. Insure that eyewash stations, showers and cleaning stations are near to work station.

### General hygiene recommendations :

Avoid contact with skin and eyes. Avoid breathing dust, vapours or mists. Never eat, drink or smoke near work stations. Good hygiene is recommended after using this product. Clean clothing before reuse.
