# THE CLIPPER ESCAPE

## SPECS:

Length: 14'6"      Beam: 35" (34" @ 4" water line)  
Bow Height: 19"      Stern Height: 18"      Center Height: 14"

## WEIGHT:

Fiberglass: 55 lbs.      Ultralight: 44 lbs.      Custom Kev: 38 lbs.  
*(shown model)*

The Escape is great for fishing, photography, or bird watching. The comfortable seats allow paddlers to sit instead of kneel. It has a near vertical bow and stern to aid in tracking. The Escape's short length allows it to maneuver easily in tight spots and its very manageable weight makes the Escape easy to load and transport.

This canoe can be easily paddled solo. Solo paddlers will often order the Escape with a bench seat in the bow, allowing them to paddle from the bow facing the stern.

**Std. Features:**      Bucket seats, footbrace, flotation tanks, center thwart.

**Options:**      Gunnel covers, black trim package, wood trim package, carrying yoke, wilderness lash system, foam thigh pads, kneeling thwart.
