Kevlar: 60 lbs.      Ultralight: 55 lbs.      K/D w/gelcoat: 70 lbs.  
*(shown model)*

The Prospector 17 has become the first choice for many experienced paddlers. It is ideally suited for rough water and large loads. Its forgiving nature makes it suitable for novice paddlers. The 17' Prospector is in its element when on a wilderness trip--- Loaded to the gunnels and beyond. When loaded, it maintains its speed and becomes even more stable. Many paddlers choose the optional bucket seats and foot brace--- There is no charge for this if ordered with a custom-made canoe. The bucket seats are mounted high enough to allow kneeling in whitewater.

**Std. Features:**      Wood web seats, yoke, flotation tanks, bow & stern thwarts

**Options:**      Gunnel covers, **black trim package**, wood trim package, wilderness lash system, foam thigh pads, expedition spray skirt, tractor seats and footbrace.
