Bow Height: 23" Stern Height: 21" Center Height: 15"

WEIGHT:

Fiberglass: 68 lbs. Kevlar: 62 lbs. Ultralight: 56 lbs.
(shown model)

The Sea Clipper was designed exclusively for Clipper Canoes by Eugene Jensen. Wilderness tripping and ocean canoeing were the driving force behind the design. The length and freeboard of the Sea Clipper make it ideal for large lakes and ocean touring. The flared bow and stern keep the Sea Clipper dry in rough conditions. It tracks well and can be turned easily with a slight offside lean. The speed that has been built into the Sea Clipper provides an added element of safety for when conditions get rough and you need to get home quickly.

Std. Features: Bucket seats, sliding bow bucket seat, footbrace, flotation tanks, bow & stern thwarts, carrying yoke, foam core.

Options: Gunnel covers, **black trim package**, wood trim package, wilderness lash system, foam thigh pads, expedition spray skirt.
