

Oyster3 LoRaWAN®

All 868, 902-928MHz LoRaWAN® regions supported

Next generation of our best-selling Oyster series -Ultra-rugged battery-powered GPS asset tracking device for LoRaWAN® networks featuring 10 years battery life (4x battery life of Oyster LoRaWAN)

'Deploy Once' Battery Life

Over 10+ years battery life on user-replaceable 3 x AA Lithium or Lithium Thionyl Chloride (LTC) batteries for extreme temperature operation

← d Adaptive Tracking

Periodic or optional movementbased tracking - tracks assets throughout the day and/or when movement occurs, entering sleep mode when inactive to conserve power and data usage

Rattery Life Monitoring

Periodic battery status uplinks give a breakdown of power use

ాష- Ultra-Rugged

IP67 rated housing ensures the device can withstand fine dust, high-pressure spray, and submersion for 30 minutes in 1m of water

Connectivity

LoRaWAN	Highly sensitive radio transceiver is available in a single multiband device. Both 868 and 902 - 928 MHz supported	
LoRaWAN Regions	AU915	
3 7 7	AS923-1	
	AS923-2	
	AS923-3	
	AS923-4	
	EU868	
	IN865	
	KR920	
	RU864	
	US915	

Batteries

User-Replaceable Batteries 3 x AA. Batteries not included.		
Supported Battery Types	Alkaline *Lithium (LiFeS2) *Lithium Thionyl Chloride (LTC) *Lithium or LTC recommended for best performance. Please dispose of Lithium batteries in a safe and responsible manner.	
Battery Life	Once Daily location updates – 10+ years Movement-Based location updates – 5 years Hourly location updates – 2 years	

Location

NSS Module Sony CXD5605	
Constellation Concurrent GPS, GLONASS, Galileo, QZSS	
Tracking Sensitivity	-147dBm cold start / -161dBm hot start
Location Accuracy	~1m 2D RMS, GPS, -130dBm
Low Noise Amplifier GPS signals are filtered and boosted by a SAW filter and low-noise amplifier (LNA) allowing where other units fail	
oRaWAN Gateway Geolocation LoRaWAN gateway geolocation fallback when there is no GNSS Fallback	

Power

Input Voltage	4-15V DC	
Sleep Current	<10uA* *Average current in lowest power configuration	
Safety	Reverse Polarity Protection

Mechanics / Design

Dimensions	108 x 86 x 30 mm (4.25 x 3.39 x 1.18")	
Weight	180g	
Housing	Ultra-Rugged IP67 Housing. Non-branded housing for optional white-labeling.	
IP Rating	IP67 rated housing ensures device can withstand fine dust, high-pressure spray, submersion for 30 mins in 1m of water, and extreme temperatures	
Installation	Compact and concealable. Multiple installation options for covertly and easily securing the device to assets with screws, bolts, cable ties, rivets, and more. Stainless steel screws supplied.	
Operating Temperature	-30°C to +60°C - for operation in extreme temperatures use LTC batteries	
GPS Antenna	Internal	
RF Antenna	Internal	
3-Axis Accelerometer	3-Axis Accelerometer to detect movement	
Diagnostic LED	Diagnostic LED indicates operation status	
On-Board Speed & Heading	Current speed and heading is reported with each position update	
	·	

Smarts

Battery Life Monitoring	Periodic battery status uplinks give a breakdown of power use	
Geofence Alerts	The server can use device location to create geofences and alerts if an asset enters or leaves designated locations	
Periodic or Movement-Based Tracking	Configure parameters to send updates based on set time intervals or when movement occurs. Adaptive tracking technology detects when the device is on the move and increases the update rate, providing detail when you need it while conserving battery when stationary.	
Sleep Mode Stationary devices enter sleep mode until movement occurs to conserve battery life ar usage		
Theft Recovery Reduce or minimize asset loss and theft		
Tip Detection and Roation Counting Axis angle reporting, tip detection and rotation counting (planned)		

Device Management

Flexible Configuration	Configure device parameters such as position update rate, movement and accelerometer settings, and more to fit any tracking application
Configuration App	Manage device firmware updates and parameters via DMLink provisioning tool. Some parameters can be changed via downlink.

Integration

Third-Party Integration	Easy integration with comprehensive documentation and a flexible and open payload format
-------------------------	--

Security

Data Security	LoRaWAN® networks use AES-128 Encryption so your data is protected
Data Security	LoRaWAN® networks use AES-128 Encryption so your data is protected

Warranty

Manufacturer's Warranty	Two-year manufacturer's warranty	
-------------------------	----------------------------------	--

Certifications

Please visit support.digitalmatter.com	FCC, ICASA, CE, UKCA, ACMA
for a full list of compliance specifications	
and documentation for your region
