

Parts

3 Spread sides apart to insert tabs on Platform (d) into slots on Back (c) at desired height. Push sides together to catch tabs on Platform (d) in slots on sides.

6 Slide Dowel (g) into hole from side. Twist Dowel (g) while pushing down to lock into place.

1 Push tabs on Back (c) into slots on Left Side (c). Push down on Back (c) to lock into place.

4 Spread sides just enough to insert Ladder (e). Unless Platform (d) is on lowest setting, also insert Extra Step (f). Push sides together, catching tabs on Ladder (e) and Extra Step (f) in slots on sides.

2 Turn parts around, then push tabs on Back (c) into slots on Right Side (b). Push down on Back (c) to lock into place.

5 Step on Ladder (e) to lock into place.

***** In order to disassemble the Stepstool, you must unlock the back. This is done by turning the Stepstool upside down and placing the front against a wall. Push the middle tabs on Back (c) in, then down to release.
