**PARTS** 

(4) Brackets

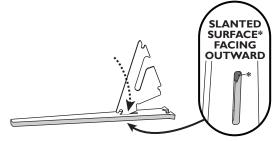

**D** 

(2) Ribs

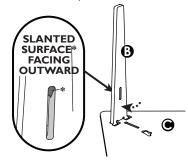

•

Table Top

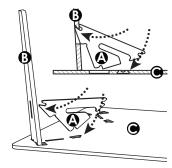

Insert each Bracket (a) into Leg (b) in and out 3x.
This crushes the wood slightly and ensures a snug fit.

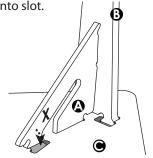

Remove Bracket from Leg **3**, and slide end of Leg into slot on Table Top **3**.

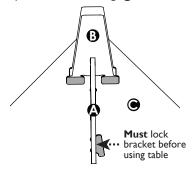

Insert Bracket **(A)** tip into slot on Leg **(B)**, and rotate down bottom corner.

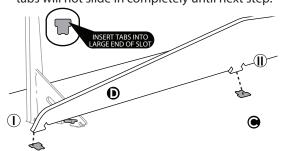

Bend tip **X** of Bracket **(A)** over and down into slot.

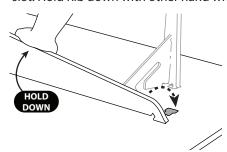

Push Bracket **(A)** in to lock in place. Repeat steps 1-5 for each Leg **(B)**.

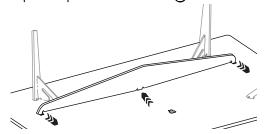

Install Rib **①** by inserting first two tabs into corresponding slots on Table Top **③** . Note that tabs will not slide in completely until next step.

Bend last tab of Rib **()** over and down into last slot. Hold Rib down with other hand while bending.

Push **in** on all three tabs to lock into place. Repeat steps 6-8 for other Rib **()**.
