Hello!

We're excited about your new project. This planning kit should help you visualize your space and have fun doing it. Let's get started!

Here are a few tips:

Double check your dimensions

We advise you to check once more that our plans match your space. If you sent us plans to be printed, we tried our best to scale the floorplans you gave us at ¼ inch = 1 foot, but it's possible that things You can measure with the ruler on the back side are a little off.

We also advise that after you plan your furniture, you should make sure it will fit in your physical class room using the furniture dimensions listed in the catalog.

Experiment \bot

Use this kit to try new things! See if you want to divide your room with shelves or keep it open. This is a great time to play with new ideas!

Get input from your team 👢

Chances are, there will be many people affected by the decisions you're making. Make sure everything is right before you order. See if someone else has ideas to contribute. Work together to make the ideal space.

Make it yours

We've provided a sheet for you to cut out extra items, like your class room rug or some large plants, or a custom piece of furniture. You know what you want to include in your room, and we want this kit to be totally yours. Check out the Auxiliary Items page to get started

Sprout can do custom furniture if you aren't finding what you need

Use the grid on the Auxiliary Items page to make your own items!

Take a picture 💿

Once you're satisfied with your layout, snap a picture so you can remember what it looked like. Then you can rearrange the furniture and do a side-by-side comparison, or just make sure to put everything in the right place when the furniture comes. Make sure to send the picture along to us at Sprout so we can help you fill out an order form.
