

Cuticle Fork and Pusher

Save your cash and do your manicure at home.

This 2-in-1 professional Cuticle Fork and pusher is great to get your nails into tip-top condition.

With its dual ended functions, the cuticle pusher has a rounded spatula, designed to follow the curve of your cuticle to push softened cuticles and dry skin. The cuticle fork end, neatens and trims the cuticle edge as you glide it along.

Push back unwanted cuticles and swipe them away, with one easy tool.

How to use me:

- To soften, soak cuticles in warm, soapy water or by using a cuticle cream or remover.
- Push cuticles back with the rounded spatula end of tool.
- Glide the cuticle fork end (with the prongs facing up) along the cuticle edge to trim.

RRP: £8.99

MANICURE TIP: Use the Tweezy Nude Nail Buff to complete your manicure - buff your nails to perfection to give them the ultimate polish (without the polish).
