

## A Closer Look

## Charging

## BEFORE FIRST USE

ZIVA is cordless and rechargeable.

Before use, charge fully for 12 hours, even if the indicator light has changed color. ZIVA can run up to 50 minutes on a single charge.

## CHARGING

To recharge, insert the included USB Cord into the charging port on the ZIVA. Then connect the USB end of the charging cord to a USB port of a computer or a USB wall adapter and then plug into an electrical outlet. As the ZIVA charges a tiny red light will come on to indicate charging is in progress. Please be sure to allow the ZIVA to charge for the full 12 hours, even if the charging light comes off before the 12 hours, allow it to charge for the full 12 hours. Recharge the ZIVA only as needed and up to 12 hours only. DO NOT overcharge which can shorten the battery life. Disconnect the Charging Cord when not charging the device. ZIVA should be powered OFF and cannot be used while charging. Do not charge ZIVA for more than 24 hours.

## IMPORTANT

ZIVA can only be used cordless. Make sure you unplug it from the power source before use.

## Usage Guide

## READY TO USE:

Once you have assured of the full charge of your ZIVA device you can proceed with your treatment.

**Before starting: make sure that the skin is perfectly clean. Do not apply any cream, body milk, soap or shaving cream.**

## For legs:

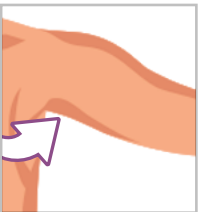

1. Fix the shaving head on the device. Switch on by sliding the switch upwards.
2. Always keep the shaver perpendicular to the surface to be shaved.
3. Always work with both hands: stretch the skin with one hand and move the appliance with the other hand.
4. Slowly move the shaver, exerting light pressure. As a precaution, the operation of the appliance may slow down substantially if the machine is pressed too hard against the skin.

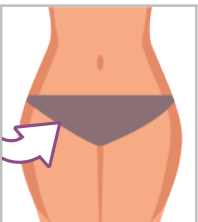

**Do not apply too much pressure to avoid causing irritation to the skin.**  
**Do not apply any perfume or deodorant for 24 hours after shaving.**

## Usage Guide

### For sensitive areas:

1. To remove hairs from your underarms, move the device from the bottom, in an upwards direction.
2. To remove hairs from the bikini line, carefully stretch the skin and move the appliance from the outside to the inside.

The ZIVA lady shaver is designed to only be used on dry skin.

It is recommended to make sure skin is clean and completely dry before use.

Do not use cream, body milk, soap or shaving cream with your ZIVA lady shaver device.

**Note:** Do not use any deodorants or alcohol-based lotions immediately before or after the shave. You may use baby powder if desired.

## Expert Advice

### TROUBLESHOOTING & TIPS

If you are not obtaining the results you expected:

If the ZIVA lady shaver is not removing your body hair properly, please read our advice on how to troubleshoot this problem to achieve a smooth shave.

- It could be that your ZIVA is not charged properly. Make sure that you charge your lady shaver long enough. After the initial 12 hours charge out of the box, ZIVA still requires 8 to 10 hours of charging to fully restore its optimal capacity.
- It is very important to use proper shaving technique to achieve desired results. We suggest pulling your skin tight with one hand and slowly moving the shaver along the skin.
- Hold your skin taut when trimming.
- Watch out for dirty or oily skin as using a lady shaver with dirty or oily skin may cause irritation.
- Make sure your skin is clean, entirely dry and free from grease before using your ZIVA lady shaver.
- Make sure that you move the lady shaver in the right direction (against the direction of hair growth) and that you hold it at the right angle (70-degree angle to your skin). The shaving head or trimmer head should be in full contact with the skin. **Do not press the appliance too firmly on your skin, be gentle.**

### TAKE ZIVA WITH YOU WHEREVER YOU GO AND ON

**TRIPS:** We made ZIVA USB rechargeable and travel-friendly (In-flight Safety Compliance) as its rechargeable NiMH battery is safe for travel in carry-on luggage or checked baggage (lithium-free).
