

Product Name: 3U 3-Way Fan Unit

Features

- A 3U rack panel fitted with 3 x 120mm diameter quiet dc fans.
- Fans are fitted to expel air from within the rack (airflow from back of panel to front).
- Incorporates three 120mm DC fans to efficiently control the airflow within a rack environment where maximum airflow is required.
- The unit has been designed to provide the best compromise between noise and efficiency within a 3U rack panel.
