## Product Name: 2U 4-Way Fan Unit

Features

- A 2U rack panel fitted with 4 x 80mm diameter quiet dc fans.

- Fans are fitted to expel air from within the rack (airflow from back of panel to front).

- Incorporates four 80mm DC fans to efficiently control the airflow within a rack environment.

- The unit has been designed to provide the best compromise between noise and efficiency within a 2U rack panel.
