# av racks.co.uk

Product Name: 2U 4-Way Fan Unit – Built-in TCD

Features

- A 2U rack panel fitted with 4 x 80mm diameter quiet dc fans and temperature control unit.

- Fans are fitted to draw cold air into the rack at the base and designed to mount on the front of the rack and draw air in (usually at the bottom).

- Incorporates four 80mm DC fans to efficiently control the airflow within a rack environment coupled to a built-in temperature control unit (TCU).

- The unit has been designed to provide the best compromise between noise and efficiency within a 2U rack panel .
