

# ROBINHOOD UNIDUCT® FILTERS

At Robinhood, we do everything we can to ensure minimal impact on the environment. That's why we use natural materials wherever possible and efficient technology to save electricity. In addition, we strive for polystyrene free and recyclable packaging. We stand by our values of a sustainable and environmentally friendly clean green New Zealand. Which is why we've been working with our partners to develop a revolutionary new filter that is much kinder to the environment.

Introducing our new Robinhood Uniduct® Filters, utilising activated charcoal and natural New Zealand wool. We've carefully selected and scientifically tested these materials to obtain incredible grease absorbency and odour removal results. Ensuring each meal cooked is made with a breath of fresh air.

\*Results were obtained from testing ORT6WXA and RWC3CL6SS models using CF110 Filters and Robinhood Uniduct Filters. SGS verified (Nov 2019) Test standard EN 61591:1997. Starter Pack Includes: X2 Green Caps, X2 Black Casing, X8 Lanaco Alpuro™ Wool, X4 Activated Carbon Pouch. (Includes X4 additional wool and X2 activated carbon pouch as refill/replacement. 1 Year supply)
