## RETAIL FOOD STORAGE BAGS

Food Storage Bags are simple and easy to use. Each bag measures 10" x 14" and is large enough to hold the variety of food that can be stored inside. The bags are recyclable, reusable and 100% Ovtene.

**Ovtene**, inspired by nature to be the first food packaging that is antibacterial and 100% recyclable. Ovtene protects against microbial contamination and dehydration, while regulating gas and water exchange. Making our 100% Ovtene, Food Storage Bags the perfect solution for storing everything you eat.

Ovtene is scientifically proven to prevent spoilage.

Extend the life of your customer's cold cuts, sliced cheese, fresh meat, seafood, produce, and baked goods. Research performed at the University of Udine confirms that Ovtene restricts secondary bacterial growth, extending shelf life and considerably postponing spoilage.

<sup>1</sup> University of Udine

Ovtene uses 60% less plastic than traditional plastic alternatives.

OVTENE PACKAGING

PLASTIC PACKAGING

Traditional plastic alternatives are made of 100% polyethylene. Ovtene is primarily composed of calcium carbonate and other trace minerals. This reduces the amount of plastic used by 60% while preserving resources and reducing waste.

WE STOCK A VARIETY OF CHEESE PACKAGING MATERIALS IN BULK AND CAN CUSTOM PRINT ALL OF THEM WITH YOUR LOGO.

Please contact us for a sample kit and pricing.
