CHEESE STORAGE PAPER

Our cheese storage paper is manufactured in France and designed specifically to wrap and store cheese. Mimicking a cheese cave, our paper allows cheese to breathe while maintaining optimal humidity. Formaticum cheese storage paper is the same material used by the finest cheese professionals and keeps your cheese tasting fresher, longer.

Each package contains fifteen 11" x 14" sheets and thirty adhesive labels.

“If you’re wrapping cheese in plastic, you’re doing it wrong. This coated paper works like a Gore-Text jacket to protect and extend the life of that \$24-a-pound clothbound Vermont Cheddar.”

HUNTER LEWIS, FOOD EDITOR

Ruth Reichl

“Somebody actually gave me a package of cheese paper a couple of years ago, and it changed my life; I’ve been grateful ever since.”
