SEA-SHIELD®

PREMIUM YACHT PRODUCTS

The SEA-SHIELD® brand of products has been developed over the years by experienced professionals and crew working within the boating and yachting industry. Our focus is to provide a line of products that clean faster, polish better and protect longer than any other products in their class.

We here at SEA-SHIELD® believe that our customers should be out enjoying their boat, not spending a lot of time maintaining it.

Clean

Boat Soap™

- **Extremely concentrated**
- **Safely cleans all surfaces**
- **Easy to rinse**
- **Won't remove wax**

SKU No. 1 gal. **SEA-BS1** / 16 oz **SEA-BS16**

SEA-SHIELD® Boat Soap creates volumes of suds, yet rinses away in seconds without leaving a film.

This amazing boat wash is so gentle it won't remove even the most delicate waxes, and instantly improves the high gloss shine of SEA-SHIELD® Coatings.

SEA-SHIELD® Boat Soap is hyper-concentrated. One Gallon is enough to produce up to 400 gallons of wash solution with suds that won't quit until the wash is complete.

Mildew Eliminator™

- **Mildew disappears!**
- **No scrubbing required**
- **Safe for use on vinyl and Hypalon**

SKU No. 32 oz **SEA-MDE32** / 1 gal. **SEA-MDE1**

SEA-SHIELD® Mildew Eliminator is a professional-strength formula that removes mildew on contact.

Even the toughest stains are no match for SEA-SHIELD® Mildew Eliminator. Amazing results can be seen after just 30 seconds.

MPCTM

Multi Purpose Cleaner

- Removes stains due to engine exhaust
- Cleans gelcoat, paint, rubber and teak
- Cleans stains on nonskid surfaces
- Also cleans buffing pads

Sku No. 32 oz **SEA-MPC32** / 1 gal. **SEA-MPC1**

This product is exceptional for tough cleaning jobs where soap and water just can't get the job done.

This ready-to-use formula is ideal for removing stains from a variety of surfaces such as paint, gelcoat, vinyl, rubber, Hypalon, plastic, fabric and wood.

Black Streak REMOVER

- **The most effective soot remover on the market!**
- **Use it to remove deeply embedded exhaust stains and black streaks.**
- **Great for paint, gelcoat, covers, vinyl, plastic and canvas.**

Sku No. 32 oz **SEA-BSR32** / 1 gal. **SEA-BSR1**

Spray on the surface and wipe with a microfiber cloth. Rinse thoroughly afterwards.

For heavy exhaust or soot, spray on the surface and let sit for a few seconds in order for it to penetrate, then wipe with a cloth and rinse. Dilute with water for lighter stains.

Rust Stain REMOVER™

- Removes rust and corrosion stains
- No hard rubbing or scrubbing required
- Spray-gel formula reduces runs

Skus No. 32 oz **SEA-RSR32** / 1 gal. **RSR1**

SEA-SHIELD® Rust Stain Remover quickly and easily eliminates stains on fiberglass and paint.

It is a concentrated spray gel solution manufactured from environmentally friendly, biodegradable ingredients.

This product is specially formulated and extremely effective at removing the stains around stainless steel fittings, waterlines and exhaust areas.

Surface PREP

- Great for new paint
- Prepares surface for wax/coating
- Safely cleans paint, gelcoat, acrylic and clear vinyl
- Wipes off easily

Skus No. 16 oz **SEA-SP16** / 1 gal. **SEA-SP1**

SEA-SHIELD® Surface Prep is a fine, non-abrasive product that deeply cleans and lusters paint and clear plastic surfaces.

It smooths away swirl marks, removes water spots, reduces fine scratches, and increases overall paint gloss.

As it cleans, SEA-SHIELD® Surface Prep leaves behind a special primer designed to promote proper bonding of SEA-SHIELD® Nano Coating and SEA-SHIELD® Exhaust Guard.

Using SEA-SHIELD® Surface Prep greatly enhances and extends the life of SEA-SHIELD® coatings.

Polish

Before

After

Buffing Lube™

- **Compounds and polishes have more working time**
- **Great on heavily oxidized surfaces**
- **Helps prevent damage to paint and gelcoat**

Skus No. 16 oz **SEA-BPL16** / 1 gal. **SEA-BPL1**

This product provides lubrication to prolong the life of SEA-SHIELD® compounds as well as other brands. Excellent on areas that are heavily oxidized and need more buffing wheel time to produce better results. Use in any situation where normal compounds and polishes dry out too quickly such as on warm surfaces, in full sun, high winds and chalky surfaces.

Heavy Cut™ #1

- **Removes heavy scratches and oxidation**
- **Removes 1500-grit sandpaper marks**
- **Breaks down evenly for a uniform finish**

Skus No. 32 oz **SEA-HC16** / 1 gal. **SEA-HC1**

SEA-SHIELD® Heavy Cut #1 removes heavily oxidized and damaged surfaces from paint and gelcoat.

It can also be used to remove 1500-grit sandpaper scratches. Uniform compounding beads break down while polishing to reduce swirl marks and micro scratches.

Follow with SEA-SHIELD® Cut & Polish #2 and SEA-SHIELD® Swirl Remover #3 to restore surface to a like-new condition.

Cut & Polish #2™

- Removes light scratches and chalk residue
- Restores oxidized surfaces
- Removes heavy compound marks

SKU No. 16 oz SEA-SP16 / 1 gal. SEA-CP1

This compound was designed to remove heavy oxidation, moderate scratches and medium chalk residue from both paint and gelcoat surfaces.

Follow with SEA-SHIELD® Swirl Remover #3 to restore gloss. This product is used by professionals looking to restore dull gelcoat or paint. For better results on very dry gelcoat, add SEA-SHIELD® Buffing Lube.

Swirl Remover #3™

- Removes light oxidation
- Completely erases swirl marks
- Brings back the ultimate luster

SKU No. 16 oz SEA-SR16 / 1 gal. SEA-SR1

SEA-SHIELD® Swirl Remover #3 is an exceptional polish designed to remove light oxidation, fine scratches, light chalk, and light swirl marks from both paint and gelcoat surfaces.

Final Polish™

- **Removes light scratches**
- **Produces wet shine**
- **Brings back the clarity of the surface**
- **Is easy to use**

SKU No. 16 oz **SEA-FP16** / 1 gal. **SEA-FP1**

SEA-SHIELD® Final Polish is a one-step polish that restores paint, gelcoat and acrylic. This product uses nanotechnology and microscopic particles to safely clean and polish paint to a perfect optical finish and a high-gloss shine.

No need to fill in scratches and swirls with thick waxes, because there are none. As a final step, apply SEA-SHIELD® Exhaust Guard for ultimate shine and protection.

Glass™ Polish

- **Crystal clear results**
- **Leaves a perfectly prepped surface for glass coatings**
- **Removes etched-in water spots**
- **Eliminates all micro scratches**

SKU No. 16 oz **SEA-GP32**

SEA-SHIELD® Glass Polish is the most advanced glass polish available on the market. A completely water-based solution, it can be used to remove hard water spots, light scratches and stains providing a clean and prepped surface for the SEA-SHIELD Nano Glass Protection System, or any other glass protection.

Metal Polish™

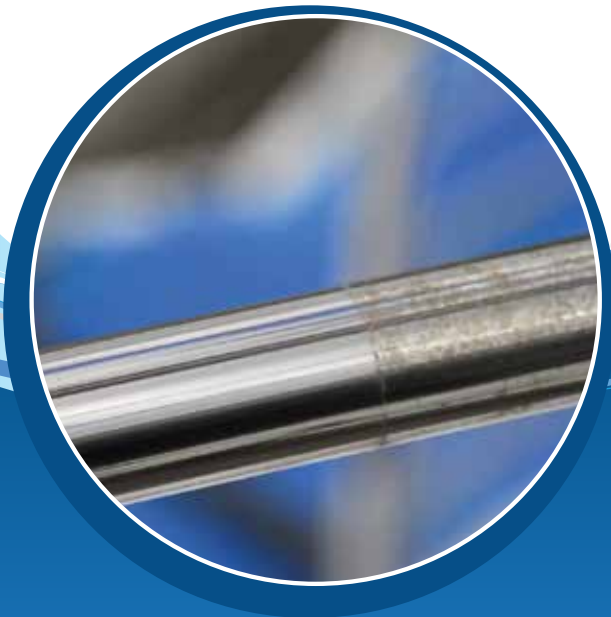

- **Removes 2000-grit scratches**
- **Restores original finish**
- **Provides brilliant shine**

Sku No. 16 oz **SEA-MP16** / 1 gal. **SEA-MP1**

SEA-SHIELD® Metal Polish is a liquid rouge that quickly removes oxidation, rust and scratches and restores a brilliant shine to dulled stainless steel, aluminum, brass and chrome.

For best results, use with a SEA-SHIELD® Soft Felt Pad.

This ammonia-free formula wipes on and off with little effort. For long-lasting protection, apply SEA-SHIELD® Nano Coating.

SEA-SHIELD® provides the best glass polishing cerium and coating system of its type for all your glass needs. SEA-SHIELD® Glass Polishing Cerium restores glass to a “like new” condition by using special techniques and tools to remove hairline scratches and swirls caused by faulty prior cleaning methods. We believe that a glass surface should be crystal clear and free of contamination.

We further provide SEA-SHIELD® Glass Coating, a unique, cutting-edge window coating that chemically bonds to your glass, providing an extremely durable, hydrophobic effect that lasts up to two years!

Glass Surfaces

SEA-SHIELD® understands the intense care it takes to maintain stainless steel and aluminum on a yacht, which is why we put together our line – to reduce the amount of time you spend polishing.

SEA-SHIELD® Metal Polish and accessories give you the tools to help bring back that new finish when other products fail to do so.

SEA-SHIELD® Nano Coating gives you the long lasting protection (up to 6 months) you need so that rust stains and corrosion don't come back and dramatically reduce the amount of times you polish in a year.

Metal Surfaces

SEA-SHIELD® provides cleaning and restoration products for acrylic, Corian, polycarbonate (Lexan), and any plastic surfaces.

Whether removing scratches or contamination, SEA-SHIELD® produces outstanding results by providing top-of-the-line products.

Improve the visibility of your clear plastic surface by using SEA-SHIELD®!

Plastic Surfaces

Protect

Cleaner Wax™

Non Abrasive
Exhaust Guard Wax Technology

- Safely cleans and protects hard surfaces
- Leaves a smooth, shiny finish
- Wipes off easy

SKU No. 16 oz **SEA-SW16** / 1 gal. **SEA-SW1**

SEA-SHIELD® Cleaner Wax is a one-step product that cleans, polishes, and protects paint, gel coat and plastic.

Our Cleaner Wax is a simple -to-use, "all-in-one" product that shines and protects while removing surface corrosion, water spots, exhaust residue, light scratches and swirl marks.

SEA-SHIELD® Cleaner Wax should be used prior to SEA-SHIELD® Nano Fresh.

Nano Coating™

Strong UV Protection with
Advanced Hydrophobic Wax

- Multi-surface coating
- Extreme UV protection
- Hyper-concentrated
- Prevents color fade
- Very water repellent

SKU No. 16 oz **SEA-NC16** / 32 oz **SEA-NC32** / 1 gal. **SEA-NC1**

SEA-SHIELD® Nano Coating is the longest-lasting protection you can apply to your yacht or boat, works on a variety of surfaces including, but not limited to paint, gelcoat, stainless steel, vinyl, leather, rubber, Hypalon, Isinglass, and acrylic surfaces. This product takes minutes to apply to a clean and dry surface. Simply wipe on and wipe off.

GlassTM Coating

SKU No. **SEA-GC2**

SEA-SHIELD® Glass Coating is a special Nanotechnology product with a long-term hydrophobic effect on glass surfaces. This is not a sealer that forms a film but rather is a modification of the surface on a molecular level to provide an easy to clean surface.

The hydrophobic product works by repelling water- and prevents adhesion of foreign matter on the surface. (Easy to Clean/self-cleaning effect). A ultra-thin and invisible coating appears to the glass surface. Because of the hydrophobic treatment effect; dirt particles cannot penetrate the matrix of the surface. Water runs off easily from the treated surface and all dirt particles are washed off with water.

SEA-SHIELD® provides up to 2 year protection in marine vessel glass when maintain using SEA-SHIELD® Nano Fresh at least once every 4 weeks. Bottle contains 2oz

NanoTM Fresh

- **Cleanser and Wax spray**
- **Refreshes SEA-SHIELD® Coatings**
- **Add to Boat Soap for wax booster**
- **UV Protection/Water Repellent**

SKU No. 32 oz **SEA-NF32** / 1 gal. **SEA-NF1**

SEA-SHIELD® Nano Fresh is a water-based environmentally-friendly cleaner and surface protector that contains no petroleum distillates.

Because it is water-repellent, it helps protect against both pollution and dirt adhesion.

SEA-SHIELD® Nano Fresh works on most surfaces and is an excellent cleaner and protection booster for surfaces that have been coated by SEA-SHIELD® Nano Coating, SEA-SHIELD® Exhaust Guard and SEA-SHIELD® Cleaner Wax.

Exhaust Guard™

Synthetic Hydrophobic Wax

- **Protects against engine exhaust and black streaks**
- **Lasts months with a single coating**
- **Fast and easy application**
- **Seals and protects paint, gel coat, Hypalon, rubber and plastics**

Sku No. 32 oz **SEA-XG16** / 1 gal. **SEA-XG1**

This product is a powerful polymer-based surface sealant designed to seal and protect finishes from black streaks, engine exhaust, industrial fallout, acid rain, saltwater and UV rays.

It seals and protects paint, gelcoat, Hypalon, rubber and hard plastic surfaces.

Gelcoat Surfaces

SEA-SHIELD® specializes in the restoration and protection of gelcoat finishes. Being thicker and harder than paint, there are many ways to remove oxidation from gelcoat finishes and bring back the

original shine. Properly maintaining your gelcoat finish is one of the most important aspects of yacht maintenance.

We work with and sell only the highest quality, most durable and environmentally friendly compounds, polishes and Nanotechnology coatings available. Technology is always changing and improving. SEA-SHIELD® stays at the front of the pack by choosing to work with cutting-edge Nanotechnology products as part of our core line of protective coatings. Our buffing process is scratch and swirl free – we use innovative tools found in the aeronautical industry, which have consistently produced outstanding results year after year.

Paint Surfaces

SEA-SHIELD® understands the care needed to keep your yacht looking great and keeping it protected from the harsh saltwater environment. Special care is required to restore and protect yacht paint. Repainting is an option, but an expensive and time consuming one.

SEA-SHIELD® provides the best polishing and coating products in the marine industry to restore your paint to a like new condition and protect it. By researching different yacht paints and the nanotechnology industries we have developed new micro polishes and nano-polymer coatings that go well beyond our competitors.

Accesorios

SEA-SHIELD® Applicator Sponge

- Easy to grip
- Applies sealants thinly and evenly
- Washable

SkU No. SEA-APPL

The easiest to use micro-fiber pad for applying SEA-SHIELD® coatings. The large surface allows for faster application and the micro-fiber material provides an even coating.

SEA-SHIELD® Microfiber Towel, 16x16 inch, Blue, Pkg/10

- Scratch free
- No shedding
- Deep cleaning
- Use for all your polishing and cleaning needs

SkU No. SEA-MFA-10

Our SEA-SHIELD® Microfiber Towels are big, soft, easy-to-use and very gentle on your vessel's paint, gelcoat and interior surfaces. We use very soft, high quality micro-fibers that don't cause scratches, but are durable enough to be washed repeatedly and still maintain that soft, scratch-free texture.

SEA-SHIELD® Glass Microfiber Towel, 16x16 inch, Pkg/4

- Provides Streak-Free Shine
- Removes Smudges
- Deep Cleans
- No Shedding

SkU No. SEA-MFG-4

The SEA-SHIELD® Glass Microfiber Towel provides the best way of cleaning glass. The fibers are specially formulated to deep clean glass and remove smudges and streaks quickly and easily.

Use with water, or with your favorite glass cleaning products.

SEA-SHIELD® Hand Polishing Soft Felt Pad, 4x6 inch, Pkg/6

Sku No. **SEA-FPAD-6**

Ideal for use on stainless steel and aluminum, brings out the brilliance of bright work by hand. Use with your preferred metal polish or with SEA-SHIELD® Metal

Polish and buffing away tarnish, scratches, and other minor surface imperfections.

You will be amazed at the level of shine that can be achieved by hand! After polishing, protect your stainless steel and aluminum surfaces with a high quality sealant to maintain the renewed shine and prevent deterioration from exposure to the elements.

Sku No. **SEA-GRFPD6**

SEA-SHIELD® Glass Felt Polishing Disc 6 inch Pad

- Highest quality felt in the marine industry
- Great for glass and stainless steel

SEA-SHIELD® Glass Restoration Felt Polishing Discs are equipped with a hook and loop backing that attaches securely to SEA-SHIELD® Velcro backing plates. Polishing by machine reduces the time and effort spent removing light scratches, water spots and stains from glass. Use with SEA-SHIELD® Glass Polish for optimum results.

SEA-SHIELD® Glass Deep Cleaning Pad, 6 inch Pad, Yellow

The SEA-SHIELD® Glass Deep Cleaning Pad, 6 inch removes even the deepest stains and water spots from glass. When used with the SEA-SHIELD® Glass Glass Deep Cleaning System, it restores glass to a clean and shiny surface.

Sku No. **SEA-6HPP**

SEA-SHIELD® Backing Plate 5/16-24 Threads, 6 inch, Velcro Back

Sku No. **SEA-BP6DA**

The SEA-SHIELD® Backing Plate has a 6-inch diameter and makes changing pads easy. Simply attach backing plate to your dual-action polisher and the Velcro back will hold all of your 6 inch pads. Changing pads is as easy as pulling one off and attaching another – there is no need to fuss with tools to attach a new pad. Save time and keep moving through the detailing and sanding process.

Accessories

- **Applies sealants thinly and evenly**
- **Very soft**
- **Will not scratch**

SEA-SHIELD® Sealing Pad, 6 inch, Black

Sku No. **SEA-6SP**

The SEA-SHIELD® Black Sealing Pad used with SEA-SHIELD® Exhaust Guard is the final step to a flawless finish using the SEA-SHIELD® Polishing System. The SEA-SHIELD® Sealing Pad is a Velcro-backed foam pad that offers safe, thin and even application of your favorite wax, sealant or protectant. Your paint or gelcoat will be sealed and safe from damage due to salt, exhaust, detergents and environmental factors while maintaining a rich, glossy shine!

SEA-SHIELD® Final Finishing Pad, 6 inch Pad, Green

Sku No. **SEA-6FFP**

- **Removes swirl marks**
- **Provides final polish**
- **Machine washable**

Use with polishes or waxes for a brilliant shine on paint and gelcoat surfaces. This is the world's first pre-polymer final finish pad. It applies a super-thin film of sealant for fast removal. The SEA-SHIELD® Final Finish Pad is an advanced pad for applying fine polishes, glazes and waxes. New

pre-polymer foam technology allows the pad to be used at higher speeds to achieve outstanding final gloss with low polish or wax residue.

SEA-SHIELD® Coarse Yellow Pad 6 inch Pad, Yellow

Sku No. **SEA-6HPP**

Our 6" Velcro SEA-SHIELD® Coarse Yellow Foam Pad is the best foam deep polishing pad you can use. This high quality foam is designed to remove water spots and light oxidation finish when used with SEA-SHIELD® Swirl Remover or SEA-SHIELD® Final Polish without leaving heavy swirls. The double-sided pad provides two pads at a very low price, and is more balanced since the pad is always centered.

SEA-SHIELD® Backing Plate 5/8/11 Threads 6 inch, Velcro Back

Sku No. **SEA**

The SEA-SHIELD® Backing Plate has a 6-inch diameter and makes changing pads easy. Simply attach backing plate to your dual-action polisher and the Velcro back will hold all of your 6 inch pads. Changing pads is as easy as pulling one off and attaching another. No need to fuss with tools to attach a new pad. Save time and keep moving through the detailing and sanding process.

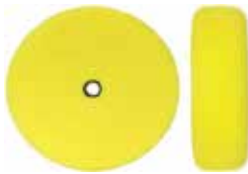

Accessories

Our 8" Double Sided SEA-SHIELD® Soft Black Foam Pad is the softest finishing pad in the marketplace. This high quality foam is designed to give you a perfect finish when used with SEA-SHIELD® Swirl Remover or SEA-SHIELD® Final Polish. The double sided pad provides two pads at a very low price. Additional benefits include a more balanced pad since the pad is always centered. SEA-SHIELD® Soft Black Foam along with the SEA-SHIELD® Final Polish removes swirl marks and leaves an amazing finish in seconds.

SkU No. **SEA-8BFP-DS**

SEA-SHIELD® Soft Black Foam Pad, 8 inch

SEA-SHIELD® Coarse Yellow Foam Pad, 8 inch

Our 8" double sided SEA-SHIELD® Coarse Yellow Foam Pad is the best foam deep polishing pad you can use. This high quality foam is designed to remove water spots and light oxidation finish when used with SEA-SHIELD® Swirl Remover or SEA-SHIELD® Final Polish without leaving heavy swirls.

The double-sided pad provides two pads at a very low price. and is more balanced since the pad is always centered. SEA-SHIELD® Coarse Yellow Foam along with SEA-SHIELD® Final Polish removes swirl marks and leaves an amazing finish in seconds. Follow up with SEA-SHIELD® Exhaust Guard Wax to protect your paint finish.

SkU No. **SEA-8YFP-DS**

SEA-SHIELD® Yellow Wool Pad, 9 inch

Embedded oxidation is no match for the SEA-SHIELD® Heavy Cutting Pad. Using the SEA-SHIELD® Heavy Cutting Pad on your rotary buffer in combination with a heavy paint or gelcoat compound, will effectively remove embedded oxidation and more serious scratches and defects. The 1.5-inch pile of 50/50 blend fibers is specifically designed for use on paints and gelcoats. Renewing the finish of your vessel renews its appearance and maintains its value.

SkU No. **SEA-9YPP-DS**

SEA-SHIELD® White Cut & Polish Pad - 9 inch

- High density wool for even polishing
- 1.25-inch wool pile
- Extra thick for longer life
- Great for moderate to heavy polishing

The new standard for compound polishing is the SEA-SHIELD® Cut & Polish Pad which provides maximum density and top quality wool for longer life and even polishing. The extra thick 1.5-inch pile provides additional protection on the edge of pad.

SkU No. **SEA-9WCP-DS**

SKU No. **SEA-9HCP-DS**

SEA-SHIELD® Heavy Cutting Pad 9 inch

Embedded oxidation is no match for the SEA-SHIELD® Heavy Cutting Pad. Using the SEA-SHIELD® Heavy Cutting Pad on your rotary buffer in combination with a heavy paint or gelcoat compound, will effectively remove embedded oxidation and more serious scratches and defects. The 1.5-inch pile of 50/50 blend fibers is specifically designed for use on paints and gelcoats. Renewing the finish of your vessel renews its appearance and maintains its value.

SKU No. **SEA-DBA**

SEA-SHIELD® Double Sided 5/8 Thread Pad Adaptor

This product adapts the SEA-SHIELD® Pads to the shaft of the polisher. This adaptor has a 5/8-11 internal thread, which turns onto a polisher on one end, and a short 5/8-11 external thread on the other end. For use with SEA-SHIELD® Pads, attached to a standard car or boat polisher.

SKU No. 1000 **SEA-SP6-10**/2000 **SEA-SP6-20**
4000 **SEA-SP6-40** - PKG/10

SEA-SHIELD® Sanding Disc

This product combines the benefits of abrasive cloth with non-woven products. Constructed with a fabric face, foam center, and a grip backing. Abrasive grains are bonded evenly to the fabric face. Openings in the fabric allow water, solvent and air to move freely around the abrasive to prevent overheating. Works especially well when sanding contoured surfaces, corners and sharp edges. Open cell design holds large amounts of water for lubrication and cooling. The foam center also provides for even surface pressure that helps eliminate uneven marks when hand sanding. Use with paint, gelcoat, acrylic, metal, etc.

SEA-SHIELD® Clear Squeeze, 16 oz. - Sea-Shield Clear Squeeze, 16 oz. Pkg/24

Super tight lid for heavy compounds
• **Long lasting-will not become brittle**

SKU No. **SEA-16-CLEAR**
SEA-16-CLEAR-24

Whether you are mixing product for application or transferring it from a larger container, the SEA-SHIELD® Squeeze Bottle is invaluable. This 16-ounce bottle allows you to measure out the amount of product required, controlling costs and preventing waste. The Clear Squeeze Dispenser is also a great solution for mixing additives to products. Additives such as SEA-SHIELD® Buffing Lube should be mixed as needed. And application of product is easy with the Clear Squeeze Dispenser, simply shake product and squeeze a small amount on applicator, buffing pad, or surface to be worked. Great for compounds, polishes and sealants.
