Surface PREP™

Part	Size	Case Size
SEA-SP16	16 OZ	12
SEA-SP1	1 Gallon	4

BENEFITS

- * Great for new paint
- * Prepares surface for wax/coating
- * Safely cleans paint, gelcoat, acrylic and clear vinyl
- * Easy wipe off

DESCRIPTION

Sea-Shield® Surface Prep is a fine, non-abrasive product that deeply cleans and lusters paint and clear plastic. It smooths away swirl marks, removes water spots, reduces fine surface scratches, and increases overall paint gloss.

As it cleans, Sea-Shield® Surface Prep leaves behind a special primer designed to promote proper bonding of Sea-Shield® Nano Coating. Using Sea-Shield® Surface Prep greatly enhances and extends the life of Sea-Shield® Nano Coating.

DIRECTIONS

Apply a small amount of product to a cotton rag and clean surface applying medium pressure, clean until all contamination is removed, then wipe off all excess using a clean micro fiber towel. To clean very hard water spots or heavy stains see How To's www.sea-shield.com/faqs.

RECOMMEND SURFACE

- Paint
- Gel-coat
- Metal
